UNIVERSITY SYSTEM OF GEORGIA Management's Discussion and Analysis

Introduction

The mission of the University System of Georgia is to contribute to the educational, cultural, economic, and social advancement of Georgia by providing excellent undergraduate general education and first-rate programs leading to associate, baccalaureate, masters, professional, and doctorate degrees; by pursuing leading-edge basic and applied research, scholarly inquiry, and creative endeavors; and by bringing these intellectual resources, and those of the public libraries, to bear on the economic development of the State and the continuing education of its citizens.

The 35 institutions in the University System were led by Chancellor Erroll B. Davis Jr. and the Board of Regents at June 30, 2007. The University System continues to thrive as shown by the following statistics:

		Students-	Students-
	Faculty	Headcount	FTE
FY2007	10,093	259,945	225,197
FY2006	9,721	253,552	218,617
FY2005	9,335	250,659	214,863

Overview of the Financial Statements and Financial Analysis

The University System of Georgia is proud to present its consolidated financial statements for fiscal year 2007. These consolidated statements contain information from the 35 institutions of the University System of Georgia, the Skidaway Institute of Oceanography and the University System Office. Each institution has prepared a separate financial statement that is available on compact disc. The emphasis of discussions about these statements will be on current year data. There are three financial statements presented: the Statement of Net Assets, the Statement of Revenues, Expenses, and Changes in Net Assets, and the Statement of Cash Flows. This discussion and analysis of the University System's financial statements provides an overview of its financial activities for the year. Comparative data is provided for fiscal 2007 and 2006.

Statement of Net Assets

The Statement of Net Assets presents the assets, liabilities, and net assets of the University System of Georgia as of the end of the fiscal year. The Statement of Net Assets is a point of time financial statement. The purpose of the Statement of Net Assets is to present to the readers of the financial statements a fiscal snapshot of the University System of Georgia. The Statement of Net

Assets presents end-of-year data concerning Assets (current and non-current), Liabilities (current and non-current), and Net Assets (assets minus liabilities). The difference between current and non-current assets will be discussed in the footnotes to the financial statements.

From the data presented, readers of the Statement of Net Assets are able to determine the assets available to continue the operations of the University System. They are also able to determine how much the University System owes vendors.

Finally, the Statement of Net Assets provides a picture of the net assets (assets minus liabilities) and their availability for expenditure by the University System. Net assets are divided into three major categories. The first category, invested in capital assets, net of debt, provides the University System of Georgia's equity in property, plant and equipment owned by its institutions. The next asset category is restricted net assets, which is divided into two categories, nonexpendable and expendable. The corpus of nonexpendable restricted resources is only available for investment purposes. Expendable restricted net assets are available for expenditure by the institutions within the University System, but must be spent for purposes as determined by donors and/or external entities that have placed time or purpose restrictions on the use of the assets. The final category is unrestricted net assets. Unrestricted net assets are available to the institutions within the University System for any lawful purpose of the respective institution.

Total Net Assets	\$4,654,688,781	\$4,376,286,986

Statement of Net Assets, Condensed

The total assets of the University System of Georgia increased by approximately \$703 million. A review of the Statement of Net Assets will reveal that the increase was primarily due to an increase of \$562 million of Capital Assets, net of accumulated depreciation and an increase of \$119 million in Cash and Investments.

The total liabilities for the year increased by approximately \$425 million. The primary components of this increase were increases of \$365 million in lease purchase obligations and \$35

million in accounts payable. The combination of the increase in total assets of \$703 million and the increase in total liabilities of \$425 million yielded a net increase in total net assets of \$278 million, or 6.4%. The increase in total net assets is primarily in the category of Invested in Capital Assets, net of related debt in the amount of \$192 million.

Statement of Revenues, Expenses and Changes in Net Assets

Changes in total net assets as presented on the Statement of Net Assets are based on the activity presented in the Statement of Revenues, Expenses, and Changes in Net Assets. The purpose of the statement is to present the revenues received by the University System of Georgia, both operating and non-operating, and the expenses paid by the University System, operating and non-operating, and any other revenues, expenses, gains and losses received or spent by the University System. Generally speaking, operating revenues are received for providing goods and services to the various customers and constituencies of the institutions. Operating expenses are those expenses paid to acquire or produce the goods and services provided in return for the operating revenues, and to carry out the missions of the institutions. Non-operating revenues are revenues received for which goods and services are not provided. For example state appropriations are non-operating because they are provided by the Legislature to the University System without the Legislature directly receiving commensurate goods and services for those revenues.

Statement of Cash Flows

The final statement presented by the University System of Georgia is the Statement of Cash Flows. The Statement of Cash Flows presents detailed information about the cash activity of the University System during the year. The statement is divided into five parts. The first part deals with operating cash flows and shows the net cash used by the operating activities of the University System. The second section reflects cash flows from non-capital financing activities. This section reflects the cash received and spent for non-operating, non-investing, and non-capital financing purposes. The third section deals with cash flows from capital and related financing activities. This section deals with the cash used for the acquisition and construction of capital and related items. The fourth section reflects the cash flows from investing activities and shows the purchases, proceeds, and interest received from investing activities. The fifth section reconciles the net cash used to the operating income or loss reflected on the Statement of Revenues, Expenses, and Changes in Net Assets.

Capital Assets

The University System of Georgia had many significant capital asset additions and renovations during fiscal 2007 including the following:

Georgia Institute of Technology: The Institute had three significant capital additions in fiscal year 2007 totaling \$140 million. Two of the three additions were research buildings. The Molecular Science and Engineering Building was completed this year, resulting in an addition of \$80 million. Also, the Klaus Advanced Computing Building was completed at a cost of \$50 million, which includes a \$10 million parking facility. The third significant capital addition in fiscal year 2007 was the \$10 million addition of the museum collection at the Institute of Paper Science and Technology.

Georgia State University: In fiscal year 2006, the State Legislature approved funding for the Science Teaching Laboratory Building, and this remains the University's top capital priority. The 213,000 gross square foot building is projected to cost a total of \$77 million. The University will receive State funding of \$40 million and the remainder is to be funded through non-state sources. Additionally, the Board of Regents, in Spring 2005, added our proposal for a 330,000 square foot Humanities Building to its Major Capital Funding List. Of the total \$78 million

estimated cost to construct the building, the University has requested \$58 million, and the remainder is to be funded through non-state sources. The only new item of funding the University received in fiscal 2007 was a minor capital project of approximately \$5 million to renovate the roof and the exhaust stacks on the Natural Science Center Building.

Medical College of Georgia: Numerous projects were completed during the fiscal year totaling \$37 million. Medical College of Georgia also completed the Health Sciences Building in fiscal year 2007. A total of \$35 million for this project was funded by Georgia State Financing and Investment Commission (GSFIC). Other on-going projects funded by the GSFIC during fiscal 2007 included \$5 million.

University of Georgia: In fiscal year 2007, the University had \$104 million in capital asset additions. The Animal Health Research Center was completed, which is the only BSL-3-Ag (biosafety lab-level 3-agriculture) research facility located on a university campus. This project was completed at a cost of \$38 million and was funded by many sources including the Georgia State Financing and Investment Commission. In October 2006, the University celebrated the 200th birthday and most recent renovation of its most significant building, Old College. The renovation of the University's first permanent building included work that restored and preserved historic features while adding modern amenities.

Georgia Southern University: Capital assets, net, increased \$49 million. The University had a significant capital asset addition in fiscal year 2007. The GSU Housing Foundation, Inc. renovated the Recreation Activities Complex at a cost of \$40 million and leased the facility to Georgia Southern University beginning August, 2006. Georgia Southern University had two major construction-in-progress capital additions for renovation of two former student residence halls. The residence halls are being converted to office space for new faculty members and to allow for conversion of space in academic buildings to student classroom and lab space.

Valdosta State University: The University had one significant capital asset addition for facilities in fiscal year 2007. The Patterson Hall renovation was completed and was reopened during fiscal year 2007. The renovation cost of approximately \$10 million was financed through a capital lease with the Valdosta State University Foundation Real Estate I, LLC.

Albany State University: The University had one significant capital asset addition for facilities in fiscal year 2007. The residence halls were completed, resulting in capital additions of \$34 million. In addition, the Early Learning Center was under construction in fiscal year 2007.

Georgia College and State University: The University had three significant capital asset additions for facilities in fiscal year 2007. The University entered into capital leases with GCSU Foundation, resulting in capital additions of \$94 million for the Student Residential Facilities; \$6 million for the Student Union Building and \$2 million for the Irwin Street parking facility.

Kennesaw State University: Kennesaw State University had \$15 million in capital asset additions in fiscal year 2007, of which \$8 million was funded by the Georgia State Financing and Investment Commission, primarily for completion of the Social Science Building. The University also entered into three new capital leases with the Foundation. The leases added \$2 million to capital assets for additional space in Chastain Pointe and Town Point, as well as the Village Centre classroom.

North Georgia College and State University: The University had significant capital additions totaling \$18 million during fiscal 2007, which included Land (\$1 million), Owen Residence Hall (\$11 million), Infrastructure (\$4 million) and a Main Street office building (\$2 million).

University of West Georgia: The University had \$64 million in capital additions for residence halls and a University Center that were financed through capital leases with University of West Georgia Foundation, Inc. and University of West Georgia Real Estate Foundation, Inc., both discretely presented component units in this report.

Gordon College: The College had a capital addition in fiscal 2007 of \$16 million for the Gordon Commons. This was funded through a capital lease with Gordon College Properties, LLC.

Middle Georgia College: The College had two significant capital asset additions for facilities in fiscal year 2007. Gateway dormitory was opened in August 2006, resulting in a capital addition of \$10 million. This facility was financed through a capital lease with the MGC Real Estate Foundation, LLC. Middle Georgia College also completed the new Chiller Plant, the installation of improved lighting and the related poles and portions of the campus utilities loop during the year. This is part of a \$16 million Campus Utilities Loop project funded by the Georgia State Financing and Investment Commission.

Georgia Perimeter College: The College had one significant capital asset addition of \$11 million for facilities in fiscal year 2007. Construction of the College Center on the Clarkston campus was completed and placed into service early in calendar year 2007.

University System Office: The System Office had significant capital additions of over \$11 million during fiscal 2007. Over \$7 million of this total were Equipment additions financed through capital leases. The balance of \$4 million represents land and equipment transferred to the University System Office through an intergovernmental agreement with The Georgia Public Telecommunications Commission.

Long-Term Debt and Liabilities

The University System of Georgia had Long-Term Debt and Liabilities of \$1.4 billion, excluding related party liabilities and deferred revenue, of which \$123 million was reflected as current liability at June 30, 2007.

For additional information concerning Long-Term Debt, see notes 1, 8 and 10 in the Notes to the Financial Statements.

Component Units

In compliance with GASB Statement No. 39, the University System of Georgia has included the financial statements and notes for all required component units for fiscal 2007. System-wide, there were 57 component units at 32 of the colleges and universities. All 57 component units are discretely presented in this consolidated Annual Financial Report. Fourteen of the component

units were deemed significant for reporting purposes to the State of Georgia and are also reported in the State Comprehensive Annual Financial Report (CAFR) for fiscal 2007.

The 57 component units had combined total assets of \$6.5 billion and total liabilities of \$3.2 billion at June 30, 2007. The assets included \$3.0 billion in investments and \$1.5 billion in capital assets. The liabilities included \$2.7 billion in long-term liabilities. Details are available in Note 1, Summary of Significant Accounting Policies and Note 16, Component Units.

Economic Outlook

The University System of Georgia has had significant increases in state appropriations during the last two years, owing to enrollment growth and the recent creation of Georgia Gwinnett College as the 35th institution in the system. Fiscal year 2008 state appropriations for current University System of Georgia operations, including institutions and other organized activities, are \$2.1 billion, an increase of 10.5% over fiscal year 2007 state appropriations. Additionally, the University System of Georgia received \$271 million in general obligation bond funding for capital facilities. The recent growth in enrollment has strengthened tuition revenues as well. As a result of continuing strong state support, the University System of Georgia has had to rely less than most higher education systems on non-state revenue sources. Total funds generated for the University System of Georgia, including all fund sources, now exceed \$5.3 billion annually.

With a solid base of state funding support, and the recent growth in appropriations and non-state revenues, the University System of Georgia remains financially strong. Enrollment in the system continues to grow at rates higher than originally expected for the time period, with a higher than anticipated increase in FTE student enrollment. There do not appear to be any conditions or economic factors on the horizon that would affect the University System of Georgia's operations or its financial position.

UNIVERSITY SYSTEM OF GEORGIA NOTES TO THE FINANCIAL STATEMENTS June 30, 2007

Note 1. Summary of Significant Accounting Policies

Nature of Operations

The University System of Georgia serves the state and national communities by providing its students with academic instruction that advances fundamental knowledge, and by disseminating knowledge to the people of Georgia and throughout the country.

Reporting Entity

The University System of Georgia is comprised of thirty-five (35) State supported member institutions of higher education in Georgia, the Skidaway Institute of Oceanography and the University System Office. The accompanying financial statements reflect the consolidated operations of the University System of Georgia.

The Board of Regents has constitutional authority to govern, control and manage the University System of Georgia. This authority includes but is not limited to the power to designate management, the ability to significantly influence operations, the authority to control institutions' budgets, the power to determine allotments of State funds to member institutions and the authority to prescribe accounting systems and administrative policies for member institutions. The University System of Georgia does not have authority to retain unexpended State appropriations (surplus) for any given fiscal year. Accordingly, all 35 institutions, the Skidaway Institute of Oceanography and the University System of Georgia reporting entity for financial reporting purposes because of the significance of their legal, operational, and financial relationships with the Board of Regents as defined in Section 2100 of the Governmental Accounting Standards Board (GASB) Codification of Governmental Accounting and Financial Reporting Standards.

The Board of Regents of the University System of Georgia implemented GASB Statement No. 39 *Determining Whether Certain Organizations are Component Units - an amendment of Statement No. 14,* in fiscal year 2004. This statement requires the inclusion of the financial statements for foundations and affiliated organizations that qualify as component units in the Annual Financial Report. These statements (Statement of Net Assets and Statement of Revenues, Expenses, and Changes in Net Assets) are discretely presented for the 57 component units of the University System of Georgia.

See Note 16, Component Units, for Foundation notes.

Financial Statement Presentation

In June 1999, the GASB issued Statement No. 34, *Basic Financial Statements and Management Discussion and Analysis for State and Local Governments*. This was followed in November 1999 by GASB Statement No. 35, *Basic Financial Statements and Management's Discussion and Analysis for Public Colleges and Universities*. The State of Georgia implemented GASB Statement No. 34 as of and for the year ended June 30, 2002. As an organizational unit of the State of Georgia, the University System was also required to adopt GASB Statements No. 34 and

No. 35 as amended by GASB Statements No. 37 and No. 38. The financial statements have been prepared in accordance with generally accepted accounting principles (GAAP) as prescribed by the GASB and are presented as required by these standards to provide a comprehensive, entity-wide perspective of the University System's assets, liabilities, net assets, revenues, expenses, changes in net assets, cash flows, and replaces the fund-group perspective previously required.

Generally Accepted Accounting Principles (GAAP) require that the reporting of summer school revenues and expenses be between fiscal years rather than in one fiscal year. Due to the lack of materiality, institutions of the University System of Georgia will continue to report summer revenues and expenses in the year in which the predominant activity takes place.

Basis of Accounting

For financial reporting purposes, the University System is considered a special-purpose government engaged only in business-type activities. Accordingly, the University System's financial statements have been presented using the economic resources measurement focus and the accrual basis of accounting, except as noted in the preceding paragraph. Under the accrual basis, revenues are recognized when earned, and expenses are recorded when an obligation has been incurred. All significant inter-institution transactions have been eliminated.

The University System has the option to apply all Financial Accounting Standards Board (FASB) pronouncements issued after November 30, 1989, unless FASB conflicts with GASB. The University System has elected to not apply FASB pronouncements issued after the applicable date.

Cash and Cash Equivalents

Cash and Cash Equivalents consist of petty cash, demand deposits and time deposits in authorized financial institutions, and cash management pools that have the general characteristics of demand deposit accounts. This includes the State Investment Pool and the Board of Regents Short-Term Investment Pool.

Short-Term Investments

Short-Term Investments consist of investments of 90 days -13 months. This would include certificates of deposits or other time restricted investments with original maturities of six months or more when purchased. Funds are not readily available and there is a penalty for early withdrawal.

Investments

The University System accounts for its investments at fair value in accordance with GASB Statement No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*. Changes in unrealized gain (loss) on the carrying value of investments are reported as a component of investment income in the Statement of Revenues, Expenses, and Changes in Net Assets. The Board of Regents Legal Fund, the Board of Regents Balanced Income Fund, the Board of Regents Total Return Fund, the Board of Regents Diversified Fund, and the Georgia Extended Asset Pool are included under Investments.

Accounts Receivable

Accounts receivable consists of tuition and fees charged to students and auxiliary enterprise services provided to students, faculty and staff, the majority of each residing in the State of Georgia. Accounts receivable also includes amounts due from the Federal government, state and local governments, or private sources, in connection with reimbursement of allowable expenditures made pursuant to the University System's grants and contracts. Accounts receivable are recorded net of estimated uncollectible amounts.

Inventories

Consumable supplies are carried at the lower of cost or market on the first-in, first-out ("FIFO") basis. Resale inventories are valued at cost using the average-cost basis.

Noncurrent Cash and Investments

Cash and investments that are externally restricted and cannot be used to pay current liabilities are classified as noncurrent assets in the Statement of Net Assets.

Capital Assets

Capital assets are recorded at cost at the date of acquisition, or fair market value at the date of donation in the case of gifts. For equipment, the University System's capitalization policy includes all items with a unit cost of \$5,000 or more, and an estimated useful life of greater than one year. Renovations to buildings, infrastructure, and land improvements that exceed \$100,000 and significantly increase the value or extend the useful life of the structure are capitalized. Routine repairs and maintenance are charged to operating expense in the year in which the expense was incurred. Depreciation is computed using the straight-line method over the estimated useful lives of the assets, generally 40 to 60 years for buildings, 20 to 25 years for infrastructure and land improvements, 10 years for library books, and 3 to 20 years for equipment. Residual values will generally be 10% of historical costs for infrastructure, buildings and building improvements, and facilities and other improvements.

To obtain the total picture of plant additions in the University System, it is necessary to look at the activities of the Georgia State Financing and Investment Commission (GSFIC) – an organization that is external to the System. GSFIC issues bonds for and on behalf of the State of Georgia, pursuant to powers granted to it in the Constitution of the State of Georgia and the Act creating the GSFIC. The bonds so issued constitute direct and general obligations of the State of Georgia, to the payment of which the full faith, credit and taxing power of the State are pledged.

Effective July 1, 2001, the GSFIC retains construction in progress on their books throughout the construction period on projects managed by them and transfers the entire project to the University System of Georgia when complete. For the year ended June 30, 2007, GSFIC transferred capital additions valued at \$146,541,945 to the University System of Georgia. This includes projects completed during fiscal 2007 and additional expenditures for projects completed in prior years. This resulted in a cumulative total of \$2,436,285,970 as of June 30, 2007.

Deposits

Deposits represent good faith deposits from students to reserve housing assignments in a University System residence hall.

Deferred Revenues

Deferred revenues include amounts received for tuition and fees and certain auxiliary activities prior to the end of the fiscal year but related to the subsequent accounting period. Deferred revenues also include amounts received from grant and contract sponsors that have not yet been earned.

Compensated Absences

Employee vacation pay is accrued at year-end for financial statement purposes. The liability and expense incurred are recorded at year-end as compensated absences in the Statement of Net Assets, and as a component of compensation and benefit expense in the Statement of Revenues, Expenses, and Changes in Net Assets. The University System of Georgia had accrued liability for compensated absences in the amount of \$146,088,649 as of 7-1-2006. For fiscal 2007, \$109,107,438 was earned in compensated absences and employees were paid \$96,501,301 for a net increase of \$12,606,137. The ending balance as of June 30, 2007 in accrued liability for compensated absences was \$158,694,786.

Noncurrent Liabilities

Noncurrent liabilities include (1) liabilities that will not be paid within the next fiscal year; (2) capital lease obligations with contractual maturities greater than one year; and (3) other liabilities that, although payable within one year, are to be paid from funds that are classified as non-current assets.

Net Assets

The University System's net assets are classified as follows:

Invested in capital assets, net of related debt: This represents the University System's total investment in capital assets, net of outstanding debt obligations related to those capital assets. To the extent debt has been incurred but not yet expended for capital assets, such amounts are not included as a component of invested in capital assets, net of related debt. The term "debt obligations" as used in this definition does not include debt of the GSFIC as discussed previously in Note 1 -Capital Assets section.

Restricted net assets - nonexpendable: Nonexpendable restricted net assets consist of endowment and similar type funds in which donors or other outside sources have stipulated, as a condition of the gift instrument, that the principal is to be maintained inviolate and in perpetuity, and invested for the purpose of producing present and future income, which may either be expended or added to principal. The University System may accumulate as much of the annual net income of an institutional fund as is prudent under the standard established by Code Section 44-15-7 of Annotated Code of Georgia.

Restricted net assets - expendable: Restricted expendable net assets include resources in which the University System is legally or contractually obligated to spend resources in accordance with restrictions imposed by external third parties.

Expendable Restricted Net Assets include the following:

	June 30, 2007
Restricted - E&G and Other Organized Activities	\$122,641,129
Federal Loans	44,726,427
Institutional Loans	21,123,266
Term Endowments	5,640,601
Quasi-Endowments	21,292,162
Total Restricted Expendable	\$215,423,585

Restricted net assets – expendable – Capital Projects: This represents resources for which the University System is legally or contractually obligated to spend resources for capital projects in accordance with restrictions imposed by external third parties.

Unrestricted net assets: Unrestricted net assets represent resources derived from student tuition and fees, state appropriations, and sales and services of educational departments and auxiliary enterprises. These resources are used for transactions relating to the educational and general operations of the University System, and may be used at the discretion of the governing board to meet current expenses for those purposes, except for unexpended state appropriations (surplus). Unexpended state appropriations must be refunded to the Board of Regents of the University System Office for remittance to the office of Treasury and Fiscal Services. These resources also include auxiliary enterprises, which are substantially self-supporting activities that provide services for students, faculty and staff.

Unrestricted Net Assets include the following items which are quasi-restricted by management:

	June 30, 2007
R & R Reserve	\$77,870,242
Reserve for Encumbrances	202,356,721
Reserve for Inventory	3,364,638
Other Unrestricted	25,440,843
Total Unrestricted Net Assets	\$309,032,444

When an expense is incurred that can be paid using either restricted or unrestricted resources, the University System's policy is to first apply the expense towards unrestricted resources, and then towards restricted resources.

Income Taxes

The University System of Georgia, as a political subdivision of the State of Georgia, is excluded from Federal income taxes under Section 115(1) of the Internal Revenue Code, as amended.

Classification of Revenues

The University System has classified its revenues as either operating or non-operating revenues in the Statement of Revenues, Expenses, and Changes in Net Assets according to the following criteria:

Operating revenues: Operating revenues include activities that have the characteristics of exchange transactions, such as (1) student tuition and fees, net of sponsored and unsponsored scholarships, (2) sales and services of auxiliary enterprises, net of sponsored and unsponsored scholarships, (3) most Federal, state and local grants and contracts and Federal appropriations, and (4) interest on institutional student loans.

Non-operating revenues: Non-operating revenues include activities that have the characteristics of non-exchange transactions, such as gifts and contributions, and other revenue sources that are defined as non-operating revenues by GASB No. 9, *Reporting Cash Flows of Proprietary and Nonexpendable Trust Funds and Governmental Entities That Use Proprietary Fund Accounting*, and GASB No. 34, such as state appropriations and investment income.

Scholarship Allowances

Student tuition and fee revenues, and certain other revenues from students, are reported at gross with a contra revenue account of scholarship allowances in the Statement of Revenues, Expenses, and Changes in Net Assets. Scholarship allowances are the difference between the stated charge for goods and services provided by the University System, and the amount that is paid by students and/or third parties making payments on the students' behalf. Certain governmental grants, such as Pell grants, and other Federal, state or nongovernmental programs are recorded as either operating or non-operating revenues in the University System's financial statements. To the extent that revenues from such programs are used to satisfy tuition and fees and other student charges, the University System has recorded contra revenue for scholarship allowances.

Auxiliary Enterprise revenue reported in the Statement of Revenues, Expenses and Changes in Net Assets is reported net of \$2,684,849 allowances.

Special Item Transfers

There was one Special Item transfer in fiscal 2007 in the amount of \$48,295 at Bainbridge College.

Bainbridge College absorbed the Early County Site of the Albany Technical College during the fiscal year and as a result, the Equipment assets for the Early County Campus were transferred to Bainbridge College as of July 1, 2006. The Equipment capital assets transferred had a value of \$234,440, with an accumulated depreciation balance of \$186,145 as of July 1, 2006. The net transfer to Bainbridge College was \$48,295. This amount is reported as a Special Item on the Statement of Revenues, Expenses and Changes in Net Assets and the Statement of Cash Flows. See Note 6 Capital Assets for additional information.

Restatement of Prior Year Balances

The following institutions had restatements of prior year balances in fiscal 2007:

Prior Year Adjustments:	Effect on Beginning Net Assets
Fort Valley State University Georgia Highlands College	\$2,484,508 2,500,000
Total	\$4,984,508

Fort Valley State University had a restatement of prior year net assets increasing beginning net assets by \$2,484,508. This was due to removing capital assets that were disposed in prior years as well as adjusting the useful lives of certain buildings to reflect the University's accounting policy.

Georgia Highlands College had a restatement of prior year net assets increasing beginning net assets by \$2,500,000. This was due to the donation of land for the Cartersville campus that was not reported in the prior year.

Note 2. Deposits and Investments

A. Deposits

The custodial credit risk for deposits is the risk that in the event of a bank failure, the University System's deposits may not be recovered. Funds belonging to the State of Georgia (and thus the University System of Georgia) cannot be placed in a depository paying interest longer than ten days without the depository providing a surety bond to the State. In lieu of a surety bond, the depository may pledge as collateral any one or more of the following securities as enumerated in the Official Code of Georgia Annotated Section 50-17-59:

- 1. Bonds, bills, notes, certificates of indebtedness, or other direct obligations of the United States or of the State of Georgia.
- 2. Bonds, bills, notes, certificates of indebtedness or other obligations of the counties or municipalities of the State of Georgia.
- 3. Bonds of any public authority created by the laws of the State of Georgia, providing that the statute that created the authority authorized the use of the bonds for this purpose.
- 4. Industrial revenue bonds and bonds of development authorities created by the laws of the State of Georgia.
- 5. Bonds, bills, certificates of indebtedness, notes or other obligations of a subsidiary corporation of the United States government, which are fully guaranteed by the United States government both as to principal and interest and debt obligations issued by the Federal Land Bank, the Federal Home Loan Bank, the Federal Intermediate Credit Bank, the Central Bank for Cooperatives, the Farm Credit Banks, the Federal Home Loan Mortgage Association and the Federal National Mortgage Association.
- 6. Guarantee or insurance of accounts provided by the Federal Deposit Insurance Corporation.

The Treasurer of the Board of Regents is responsible for all details relative to furnishing the required depository protection for all units of the University System of Georgia.

At June 30, 2007, the carrying values of deposits were \$370,780,125 and the bank balances were \$420,320,782. Of the University System's deposits, \$416,432,835 were uninsured. Of these uninsured deposits, \$99,848,220 were collateralized with securities held by the financial institution's trust department or agent in the University System's name, \$237,315,732 were collateralized with securities held by the financial institution, by its trust department or agency, but not in the University System's name and \$79,268,883 were uncollateralized.

B. Investments

The University System maintains investment policy guidelines that are intended to foster sound and prudent judgment in the management of assets to ensure safety of capital consistent with the fiduciary responsibility each institution has to the citizens of Georgia and which conforms to the Board of Regents investment policy. All investments must be consistent with donor intent, Board of Regents policy, and applicable federal and state laws. The University System's investments as of June 30, 2007 are presented below. All investments are presented by investment type and debt securities are presented by maturity.

Investment Pools

The Georgia Fund 1 Investment Pool, managed by the Office of Treasury and Fiscal Services, is not registered with the Securities and Exchange Commission as an investment company, but does operate in a manner consistent with the SEC's Rule 2a7 of the Investment Company Act of 1940. This investment is valued at the pool's share price, \$1.00 per share. The Georgia Fund 1 Investment Pool is an AAAm rated investment pool by Standard and Poor's. The Weighted Average Maturity of the Fund is 15 days at June 30, 2007.

The Georgia Extended Asset Pool, managed by the Office of Treasury and Fiscal Services, is not registered with the Securities and Exchange Commission as an investment company. Net Asset Value (NAV) is calculated daily to determine current share price, which was \$1.99 at June 30, 2007. The Georgia Extended Asset Pool is an AAA rated investment pool by Standard and Poor's. The effective duration of the fund for the month of June, 2007 was .91 years.

The University System Office serves as fiscal agent for various units of the University System of Georgia and cooperative organizations. The University System Office pools the monies of these organizations with the University System Office's monies for investment purposes. The University System Office cannot allocate pool investments between the internal (University System) and external (cooperative organizations) investment pool portions. The investment pool is not registered with the SEC as an investment company. The fair value of the investments is determined daily. The pool does not issue shares. Each participant is allocated a pro rata share of each investment at fair value along with a pro rata share of the interest that it earns.

The University System maintains investment policy guidelines for each pooled investment fund that is offered to qualified University System participants. These policies are intended to foster sound and prudent judgment in the management of assets to ensure safety of capital consistent with the fiduciary responsibility each institution has to the citizens of Georgia and which conforms with the Board of Regents investment policy. All investments must be consistent with donor intent, Board of Regents policy, and applicable federal and state laws.

Units of the University System of Georgia and their affiliated organizations may participate in the Pooled Investment Fund program. The overall character of the pooled fund portfolio should be one of above average quality, possessing at most, an average degree of investment risk.

The Regents' Investment Pool funds are described below. Investment fund balances within the University System (the Primary Government) have been eliminated in this report, with the underlying investment instruments of the pools reported instead.

Short Term Fund

The Short Term fund provides a current return and stability of principal while affording a means of overnight liquidity for projected cash needs. The investment maturities of the fund will range between daily and two years.

Legal Fund

The Legal fund provides an opportunity for greater income and modest principal growth to the extent possible with the securities allowed under Georgia Code 50-17-59 and 50-17-63. The average maturity of this fund will typically range between five and 10 years, with a maximum of thirty years for any individual investment. The overall character of the portfolio should be one of treasury and agency quality, possessing virtually no degree of financial risk.

Balanced Income Fund

The Balanced Income fund is designed to be a vehicle to invest funds that are not subject to the state regulations concerning investing in equities. This fund is comprised of fixed income, equity and cash equivalent instruments.

The equity allocation range shall be between 30% and 40%, with a target of 35% of the total portfolio. The fixed income (bond) portion of the portfolio shall be between 60% and 70%, with a target of 65% of the total portfolio. Reserves for contingencies and stock and bond purchases are expected to comprise the balance of the fund. Reserves and excess income should be invested at all times in practical amounts. Reserves can be invested in high quality institutional money market mutual funds or other high quality, short term instruments.

Total Return Fund

The Total Return fund is another pool designed to be a vehicle to invest funds that are not subject to state regulations concerning investing in equities. This pool offers the greatest percentage of overall equity exposure, with well over half of the funds typically invested in equities.

The equity allocation range shall be between 60% and 70%, with a target of 65% of the total portfolio. The fixed income (bond) portion of the portfolio shall be between 30% and 40%, with a target of 35% of the total portfolio. Reserves for contingencies and stock and bond purchases are expected to comprise the balance of the fund. Reserves and excess income should be invested at all times in practical amounts. Reserves can be invested in high quality institutional money market mutual funds or other high quality, short term instruments.

Diversified Fund

The Diversified fund is designed to gain further diversification and increase exposures to assets that have lower correlation to equity and bond markets by utilizing alternative asset classes. In addition, this fund is constructed to build an optimal portfolio where return is increased and risk is reduced.

The equity allocation range shall be between 50% and 75% of the portfolio. The fixed income (bond) portion of the portfolio shall be between 20% and 40%. The portfolio may also consist of Hedge Funds, Real Estate and Venture Capital/Private Equity/Post Venture Capital.

Hedge Funds – The investment approach to this asset class is to use a multi-strategy, multimanager fund of hedge funds. The Board of Regents believes that a fund of fund strategy will provide the best access to a highly diversified pool of hedge fund strategies and managers.

Real Estate – The Board of Regents' approach to investing in this asset class is to use real estate investment trusts (REITs). REITs are more liquid than owning commercial real estate and diversification can be achieved by purchasing a mutual fund.

Venture Capital/Private Equity/Post Venture Capital – This asset class is the riskiest and most volatile permitted investment opportunity. This asset should be considered as an additional diversification investment strategy due to the low correlation with stocks and bonds.

Reserves for contingencies and stock and bond purchases are expected to comprise the balance of the fund. Reserves and excess income should be invested at all times in practical amounts. Reserves can be invested in high quality institutional money market mutual funds or other high quality, short term instruments.

Investment Risks:

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates of debt investments will adversely affect the fair value of an investment. The University System's policy for managing interest rate risk is contained in the investment policy guidelines for the various pooled investment funds:

- 1. In the Short Term fund, the average maturity of the fixed income portfolio shall not exceed three years.
- 2. In all the other pooled funds, the average maturity of the fixed income portfolio shall not exceed ten years.
- 3. Fixed income investments, except in the Diversified Fund, shall be limited to US government agency and corporate debt instruments that meet investment eligibility under Georgia Code 50-17-63.
- 4. The fixed income target allocation is defined in the investment policy guidelines for each pooled investment fund. These targets may be modified upon recommendation of the fund's investment manager and approval by the Board of Regents.

Custodial Credit Risk

Custodial credit risk for investments is the risk that, in the event of a failure of the counterparty to a transaction, the University System will not be able to recover the value of the investment or collateral securities that are in the possession of an outside party. The University System's policy for managing custodial credit risk for investments is:

- 1. The University System has appointed a federally regulated banking institution as custodian. The custodian performs its duties to the standards of a professional custodian and is liable to the University System of Georgia for claims, losses, liabilities and expenses arising from its failure to exercise ordinary care, its willful misconduct, or its failure to otherwise act in accordance with the contract.
- 2. All securities transactions are to be settled on a delivery vs. payment basis through an approved depository institution such as the Depository Trust Company or the Federal Reserve.
- 3. Repurchase agreements are to be collateralized by United States Treasury securities at 102% of the market value of the investment at all times.

At June 30, 2007, \$159,484,881 of the University System's applicable investments were uninsured and held by the investment's counterparty in the University System's name and \$2,614,635 were uninsured and held by the investment's counterparty's trust department or agent, but not in the University System's name.

Credit Quality Risk

Credit quality risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The University System's formal policy for managing credit quality risk is contained in the investment policy guidelines for the various pooled investment funds:

- 1. In all pooled funds except the Diversified Fund, all debt issues must be eligible investments under Georgia Code 50-17-63. Portfolios of debt security funds also must meet the eligible investment criteria under the same code section.
- 2. The Diversified Fund is permitted to invest in non-investment grade debt issues up to a limit of 15% of the entire portfolio.
- 3. The portfolios shall be well diversified as to issuer and maturity.

The University System investments subject to credit quality risk follow:

Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. The University System's policy for managing concentration of credit risk is to diversify investments to the extent that any single issuer shall be limited to 5% of the market value in a particular investment fund. United States Government and United States Governmental agency securities explicitly guaranteed by the U.S. Government are exempt from this requirement.

The following investments of the University System of Georgia subject to concentration of credit risk exceed 5% of total investment holdings as of June 30, 2007:

Investment	<u>Amount</u>	<u>% of Total</u>
Federal National Mortgage Association	\$72,484,111	13%
Federal Home Loan Mortgage Corporation	\$35,462,924	6%

Foreign Currency Risk

Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment or a deposit. The University System's policy for managing exposure to foreign currency credit risk is:

- 1. The Diversified Fund is the only pooled investment fund authorized to hold foreign investments. The current approved asset allocation target for international equity is 0 10% and for global fixed income is 0 10%.
- 2. The Diversified Fund is subject to exchange rate risk on these investments, which does ultimately impact performance.
- 3. The market value of all international investments is reported in United States Dollars.
- 4. Direct currency hedging is not permissible under the current investment policy guidelines.

Note 3. Accounts Receivable

Accounts receivable consisted of the following at June 30, 2007:

	June 30, 2007

Note 5. Notes/Loans Receivable

Notes/Loans receivable primarily consist of student loans made through the Federal Perkins Loan Program (the Program) and comprise substantially all of the loans receivable at June 30, 2007. The Program provides for cancellation of a loan at rates of 10% to 30% per year up to a maximum of 100% if the participant complies with certain provisions. The federal government reimburses the University System for amounts cancelled under these provisions. As the University System determines that loans are uncollectible and not eligible for reimbursement by the federal government, the loans are written off and assigned to the U.S. Department of Education. The University System has provided an allowance for uncollectible loans, which, in management's opinion, is sufficient to absorb loans that will ultimately be written off. At June 30, 2007 the allowance for uncollectible loans was approximately \$2,501,000.

In February 2005, the University entered into an additional capital lease of \$11,782,962 at 4.72 percent with ASU Foundation, whereby the University leases a student center building for a 29 year term that began March 2006 and expires June 2034.

The University is responsible for operating costs, such as utilities and insurance for both leases listed above. The outstanding liability at June 30, 2007, on these capital leases is \$20,546,264 and \$11,860,938, respectively. The University may cancel the lease agreements at the end of any fiscal year when sufficient appropriations, revenues, income, grants or other funding sources are not available. The Augusta State University Foundation is a component unit of Augusta State University.

Augusta State University also entered into an installment purchase agreement for equipment with the Office of Information and Instruction Technology (OIIT), a related state agency, on December 1, 2004. The final installment under this agreement was paid in December 2006. There is no outstanding liability for this lease as of June 30, 2007.

Kennesaw State University

Kennesaw State University had eight capital leases with Kennesaw State University Foundation, Inc., a discretely presented component unit, in the current fiscal year.

In May 2002, Kennesaw State University entered into a capital lease of \$3,965,768 at 9.14 percent whereby the University leases nine houses for a twenty-five-year period that expires April 2027. The outstanding liability at June 30, 2007 on this capital lease is \$3,656,077.

In August 2002, the University entered into a capital lease of \$21,016,938 at 4.7 percent whereby the University leases two parking decks for a twenty-four-year period that expires July 2026. In

August 2003, the lease payments increased because additional space was added to one of the decks, bringing the value of the lease to \$24,093,887. The decks are constructed on land owned by the University and leased to Kennesaw State University Foundation, Inc. for \$1.00 annually for a period of 25 years commencing in June 2001. At the expiration of the ground lease, ownership of the parking decks transfers to the University. The outstanding liability at June 30, 2007 on this capital lease is \$20,944,602.

In January 2004, the University entered into a capital lease of \$2,718,028 at 5.5 percent whereby the University leases a portion of a building for a twenty-five-year period that expires June 2029. The University has the right of first refusal to lease additional space in the building complex. Should the cumulative value of the rent payments equal the value of the Foundation's financing instrument and all additional rent under the terms of the agreement, Kennesaw State University Foundation, Inc. will gift the property to the University. In December 2004, the University entered into a capital lease at 5.5% for additional space in the complex, bringing the value of the lease to \$3,378,929. In February 2007, the University substituted space and added additional space in a capital lease at 5.5% bringing the value of the lease to \$4,326,537. The outstanding liability at June 30, 2007 on these capital leases is \$4,050,922.

In February 2004, the University entered into a capital lease of \$200,000 at 2.0 percent whereby the University leases a house for a fifteen-year period that expires January 2019. The outstanding liability at June 30, 2007 on this capital lease is \$159,567.

In September 2004, the University entered into a capital lease of \$14,323,134 at 5.79 percent whereby the University leases a parking deck for a twenty-five year period that expires August 31, 2029. The deck is constructed on land owned by the University and leased to Kennesaw State University Foundation, Inc. for \$197,600 annually for a period of twenty-five years commencing in September 2004. At the expiration of the ground lease, ownership of the parking deck transfers to the University. The outstanding liability at June 30, 2007 on this capital lease is \$13,471,967.

In April 2006, the University entered into a capital lease of \$4,015,944 at 8.22 percent whereby the University leases a portion of an office building for a twenty-four-year period that expires June 30, 2030. The University is obligated to lease additional space in the building as it becomes available. At the expiration of the lease, ownership of the building transfers to the University. In September 2006, the University entered into a capital lease at 8.22 percent for additional space in the complex, bringing the value of the lease to \$4,157,971. The outstanding liability at June 30, 2007 on these capital leases is \$4,063,171.

In April 2006, the University entered into a capital lease of \$1,814,402 at 5.07 percent whereby the University leases 7.242 acres of unimproved land for a twenty-four-year period that expires June 30, 2030. At the expiration of the lease, ownership of the land transfers to the University. The outstanding liability at June 30, 2007 on this capital lease is \$1,765,607.

In November 2006, the University entered into a capital lease of \$1,041,207 at 5.38 percent whereby the University leases classroom space in a multi-purpose building. The building is constructed on land owned by the University and leased to Kennesaw State University Foundation, Inc. for \$10 for a twenty-five year period commencing in June 2004. At the

expiration of the ground lease, ownership of the building transfers to the University. The outstanding liability at June 30, 2007 on this capital lease is \$978,979.

In March 2006, the Board of Regents had approved a lease for an office/classroom building that would have been classified as a capital lease; however, the lease had not been executed as of the statement date.

Southern Polytechnic State University

Southern Polytechnic State University had two capital leases with related entities in the current fiscal year. In July 2005, Southern Polytechnic State University entered into a capital lease of \$11,643,862 at 5.0 percent with the Southern Polytechnic State University Foundation, Inc., a discretely presented component unit, whereby the University leases a building for a twenty-two year period that began July 2005 and expires June 2027. Also in July 2005, Southern Polytechnic State University entered into a capital lease of \$22,148,456 at 5.0 percent with the Southern Polytechnic State University Foundation, Inc., whereby the University leases a building for a twenty-two for a twenty-four year period that began July 2005 and expires June 2029. The outstanding liability at June 30, 2007 on these capital leases is \$32,179,013. The University at its option may terminate the lease and purchase the Foundation's interest for the unamortized principal balance and the payment of \$1.

University of West Georgia

University of West Georgia has three capital leases with related entities with terms expiring in various years between 2009 and 2035. Interest rates range from 3.0 percent to 4.75 percent.

Two separate capital leases for student residence halls are with the University of West Georgia Foundation, Inc., a discretely presented component unit in these financial statements. The University Suites lease began in August 2004 and expires in August 2029. Its outstanding principal balance at June 30, 2007 is \$12,408,641. The Arbor View Apartments lease began in August 2005 and expires in June 2030. The outstanding principal balance is \$20,223,471 as of June 30, 2007. Last year these two leases were considered operating leases and have been reclassified as capital leases for this and all future periods.

The University Center is being leased from the University of West Georgia Real Estate Foundation, Inc., UWG Campus Center, LLC, also a discretely presented component unit in these financial statements. The lease began in September 2006 and expires in June 2035. The remaining balance on this lease as of June 30, 2007 is \$30,413,308.

University of West Georgia also has a capital lease for PBX equipment with a third party that has an outstanding principal balance at June 30, 2007 in the amount of \$668,340. This lease expires in December 2009.

Albany State University

Albany State University had one capital lease with a related entity in the current fiscal year. In August 2006, Albany State University entered into a capital lease of \$34,320,000 at 3.25 percent to 5.5 percent with the Albany State University Foundation, a discretely presented component

unit, whereby the University leases a building for a twenty-nine year period that began August 2006 and expires July 2034. The outstanding liability at June 30, 2007 on this capital lease is \$34,320,000.

OPERATING LEASES

The University System of Georgia's noncancellable operating leases having remaining terms of more than one year expire in various fiscal years from 2008 through 2032. Certain operating leases provide for renewal options for periods from one to three years at their fair rental value at the time of renewal. All agreements are cancellable if the State of Georgia does not provide adequate funding, but that is considered a remote possibility. In the normal course of business, operating leases are generally renewed or replaced by other leases. Operating leases are generally payable on a monthly basis. Examples of property under operating leases are real property, copiers and other small business equipment. System-wide real property and equipment operating lease expense for fiscal 2007 was \$34,087,091. System-wide future operating lease commitments total \$90,608,234.

Future commitments for capital leases (which here and on the Statement of Net Assets include other installment purchase agreements) and for noncancellable operating leases having remaining terms in excess of one year as of June 30, 2007, are as follows:

Teachers Retirement System of Georgia

Plan Description

The University System of Georgia participates in the Teachers Retirement System of Georgia (TRS), a cost-sharing multiple-employer defined benefit pension plan established by the Georgia General Assembly. TRS provides retirement allowances and other benefits for plan participants. TRS provides service retirement, disability retirement, and survivor's benefits for its members in accordance with State statute. The Teachers Retirement System of Georgia issues a separate stand alone financial audit report and a copy can be obtained from the TRS offices or from the Georgia Department of Audits and Accounts.

Funding Policy

Employees of the University System of Georgia who are covered by TRS are required by State statute to contribute 5% of their gross earnings to TRS. The University System of Georgia makes monthly employer contributions to TRS at rates adopted by the TRS Board of Trustees in accordance with State statute and as advised by their independent actuary. For fiscal year 2007, the employer contribution rate was 9.28% for covered employees. Employer contributions for the current fiscal year and the preceding two fiscal years are as follows:

Fiscal Year	Percentage Contributed	Required Contribution
2007	100%	\$115,443,652
2006	100%	\$109,977,005
2005	100%	\$106,062,477

Employees' Retirement System of Georgia

Plan Description

The University System of Georgia participates in the Employees' Retirement System of Georgia (ERS), a cost-sharing multiple-employer defined benefit pension plan established by the General Assembly of Georgia for the purpose of providing retirement allowances for employees of the State of Georgia.

The benefit structure of ERS is defined by State statute and was significantly modified on July 1, 1982. Unless elected otherwise, an employee who currently maintains membership with ERS based upon State employment that started prior to July 1, 1982, is an "old plan" member subject to the plan provisions in effect prior to July 1, 1982. All other members are "new plan" members subject to the modified plan provisions.

Under both the old plan and new plan, members become vested after 10 years of creditable service. A member may retire and receive normal retirement benefits after completion of 10 years of creditable service and attainment of age 60. Additionally, there are certain provisions allowing for retirement after 25 years of service regardless of age.

Retirement benefits paid to members are based upon a formula which considers the monthly average of the member's highest twenty-four consecutive calendar months of salary, the number of years of creditable service, and the member's age at retirement. Postretirement cost-of-living adjustments are also made to member's benefits. The normal retirement pension is payable monthly for life; however, options are available for distribution of the member's monthly pension at reduced rates to a designated beneficiary upon the member's death. Death and disability benefits are also available through ERS.

In addition, the ERS Board of Trustees created the Supplemental Retirement Benefit Plan (SRBP) effective January 1, 1998. The SRBP was established as a qualified governmental excess benefit plan in accordance with Section 415 of the Internal Revenue Code (IRC) as a portion of ERS. The purpose of SRBP is to provide retirement benefits to employees covered by ERS whose benefits are otherwise limited by IRC 415.

The ERS issues a financial report each fiscal year, which may be obtained through ERS.

Funding Policy

As established by State statute, all full-time employees of the State of Georgia and its political subdivisions, who are not members of other state retirement systems, are eligible to participate in the ERS. Both employer and employee contributions are established by State statute. The University System of Georgia's payroll for the year ended June 30, 2007 for employees covered by ERS was \$4,621,119. The University System of Georgia's total payroll for all employees was \$2,389,439,678.

For the year ended June 30, 2007 under the old plan, member contributions consist of 6.5% of annual compensation minus \$7.00. Of these member contributions, the employee pays the first 1.5% and the University System of Georgia pays the remainder on behalf of the employee.

Under the new plan, member contributions consist solely of 1.5% of annual compensation paid by employee. The University System of Georgia also is required to contribute at a specified percentage of active member payroll determined annually by actuarial valuation for both old and new plans. For the year ended June 30, 2007, the ERS employer contribution rate for the University System of Georgia amounted to 10.41% of covered payroll and included the amounts contributed on behalf of the employees under the old plan referred to above. Employer contributions are also made on amounts paid for accumulated leave to retiring employees.

Total contributions to the plan made during fiscal year 2007 amounted to \$555,304, of which \$485,973 was made by the University System of Georgia and \$69,331 was made by employees. These contributions met the requirements of the plan.

Actuarial and Trend Information

Actuarial and historical trend information is presented in the ERS June 30, 2007 financial report, which may be obtained through ERS.

Regents Retirement Plan

Plan Description

The Regents Retirement Plan, a single-employer defined contribution plan, is an optional retirement plan that was created/established by the Georgia General Assembly in O.C.G.A. 47-21-1 et.seq. and is administered by the Board of Regents of the University System of Georgia. O.C.G.A. 47-3-68(a) defines who may participate in the Regents Retirement Plan. An "eligible university system employee" is a faculty member or a principal administrator, as designated by the regulations of the Board of Regents. Under the Regents Retirement Plan, a plan participant may purchase annuity contracts from four approved vendors (AIG-VALIC, American Century, Fidelity, and TIAA-CREF) for the purpose of receiving retirement and death benefits. Benefits depend solely on amounts contributed to the plan plus investment earnings. Benefits are payable to participating employees or their beneficiaries in accordance with the terms of the annuity contracts.

Funding Policy

The University System of Georgia makes monthly employer contributions for the Regents Retirement Plan at rates adopted by the Teachers Retirement System of Georgia Board of Trustees in accordance with State statute and as advised by their independent actuary. For fiscal year 2007, the employer contribution was 9.66% for the first six months and 8.13% for the last six months of the participating employee's earnable compensation. Employees contribute 5% of their earnable compensation. Amounts attributable to all plan contributions are fully vested and non-forfeitable at all times.

The University System of Georgia and the covered employees made the required contributions of \$66,198,943 (9.66% or 8.13%) and \$37,233,293 (5%), respectively.

AIG-VALIC, American Century, Fidelity, and TIAA-CREF have separately issued financial reports which may be obtained through their respective corporate offices.

Georgia Defined Contribution Plan

Plan Description

The University System of Georgia participates in the Georgia Defined Contribution Plan (GDCP) which is a single-employer defined contribution plan established by the General Assembly of Georgia for the purpose of providing retirement coverage for State employees who are temporary, seasonal, and part-time and are not members of a public retirement or pension system. GDCP is administered by the Board of Trustees of the Employees' Retirement System of Georgia.

Benefits

A member may retire and elect to receive periodic payments after attainment of age 65. The payment will be based upon mortality tables and interest assumptions to be adopted by the Board of Trustees. If a member has less than \$3,500 credited to his/her account, the Board of Trustees has the option of requiring a lump sum distribution to the member in lieu of making periodic payments. Upon the death of a member, a lump sum distribution equaling the amount credited to his/her account will be paid to the member's designated beneficiary. Benefit provisions are established by State statute.

Contributions

Member contributions are seven and one-half percent (7.5%) of gross salary. There are no employer contributions. Contribution rates are established by State statute. Earnings are credited to each member's account in a manner established by the Board of Trustees. Upon termination of employment, the amount of the member's account is refundable upon request by the member.

Total contributions made by employees during fiscal year 2007 amounted to \$6,760,845 which represents 7.5% of covered payroll. These contributions met the requirements of the plan.

The Georgia Defined Contribution Plan issues a financial report each fiscal year, which may be obtained from the ERS offices.

Note 12. Risk Management

The University System of Georgia offers its employees and retirees access to two different selfinsured healthcare plan options – a PPO/PPO Consumer healthcare plan, and an indemnity healthcare plan. The University System of Georgia and participating employees and retirees pay premiums to either of the self-insured healthcare plan options to access benefits coverage. The respective self-insured healthcare plan options are included in the financial statements of the Board of Regents of the University System of Georgia – University System Office. All units of the University System of Georgia share the risk of loss for claims associated with these plans. The reserves for these two plans are considered to be a self-sustaining risk fund. Both selfinsured healthcare plan options provide a maximum lifetime benefit of \$2,000,000 per person.

The Board of Regents has contracted with Blue Cross Blue Shield of Georgia, a wholly owned subsidiary of WellPoint, to serve as the claims administrator for the two self-insured healthcare plan products. All claims submitted by program participants are remitted directly to Blue Cross – Blue Shield from various organizational units for verification of coverage, processing and payment through a bank account maintained for this purpose by Blue Cross – Blue Shield. Blue Cross – Blue Shield maintains an eligibility file based on information furnished by the various organizational units of the University System of Georgia. In addition to the two different self-insured healthcare plan options offered to the employees of the University System of Georgia, two fully insured HMO healthcare plan options are also offered to System employees.

Express Scripts is the administrator of the Board of Regents' prescription drug plan. Pharmacy drug claims will be processed in accordance with guidelines established for the Board of Regents' Prescription Drug Benefit Program. Generally, claims are submitted by participating pharmacies directly to Express Scripts for verification, processing and payment. Express Scripts maintains an eligibility file based on information furnished by Blue Cross – Blue Shield on behalf of the various organizational units of the University System of Georgia.

A reconciliation of total estimated claims liabilities for the fiscal year ended June 30, 2007, is shown below:

Unpaid Claims and Claim Adjustments July 1, 2006	\$ 27,983,473
Incurred Claims and Claim Adjustments Expenses – Provisions for Insured Events	
of the current year	264,356,511
Payments – Claims and Claim Adjustments Attributable to Insured Events	
of the Current Year and of Prior Years	265,192,693
Unpaid Claims and Claim Adjustments June 30, 2007	\$ 27,147,291

The Department of Administrative Services (DOAS) has the responsibility for the State of Georgia of making and carrying out decisions that will minimize the adverse effects of accidental losses that involve State government assets. The State believes it is more economical to manage its risks internally and set aside assets for claim settlement. Accordingly, DOAS processes claims for risk of loss to which the State is exposed, including general liability, property and casualty, workers' compensation, unemployment compensation, and law enforcement officers' indemnification. Limited amounts of commercial insurance are purchased applicable to property, employee and automobile liability, fidelity and certain other risks. The University System of Georgia, as an organizational unit of the Board of Regents of the University System of Georgia risk management program administered by DOAS. Premiums for the risk management program are charged to the various state organizations by DOAS to provide claims servicing and claims payment.

A self-insured program of professional liability for its employees was established by the Board of Regents of the University System of Georgia under powers authorized by the Official Code of Georgia Annotated Section 45-9-1. The program insures the employees to the extent that they are not immune from liability against personal liability for damages arising out of the performance of their duties or in any way connected therewith. The program is administered by DOAS as a Self-Insurance Fund.

Note 13. Contingencies

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies. This could result in refunds to the grantor agency for any expenditures that are disallowed under grant terms. The amount of expenditures which may be disallowed by the grantor cannot be determined at this time although the University System of Georgia expects such amounts, if any, to be immaterial to its overall financial position.

Litigation, claims and assessments filed against the University System of Georgia, if any, are generally considered to be actions against the State of Georgia. Accordingly, significant

litigation, claims and assessments pending against the State of Georgia are disclosed in the State of Georgia Comprehensive Annual Financial Report for the fiscal year ended June 30, 2007.

Note 14. Post-Employment Benefits Other Than Pension Benefits

Pursuant to the general powers conferred by the Official Code of Georgia Annotated Section 20-3-31, the Board of Regents of the University System of Georgia has established group health and life insurance programs for regular employees of the University System of Georgia. It is the policy of the Board of Regents to permit employees of the University System of Georgia eligible for retirement or that become permanently and totally disabled to continue as members of the group health and life insurance programs. The policies of the Board of Regents of the University System of Georgia define and delineate who is eligible for these post-employment health and life insurance benefits. Organizational units of the Board of Regents of the University System of Georgia pay the employer portion for group insurance for affected individuals. With regard to life insurance, the employer covers the total cost for \$25,000 of basic life insurance. If an individual elects to have supplemental, and/or, dependent life insurance coverage, such costs are borne entirely by the employee.

As of June 30, 2007, there were 12,909 employees who had retired or were disabled that were receiving these post-employment health and life insurance benefits. For the year ended June 30, 2007, the University System of Georgia recognized as incurred \$58,606,344 of expenditures, which was net of \$21,263,805 of participant contributions.

Georgia Institute of Technology

Georgia Tech Foundation, Inc.

Georgia Tech Foundation, Inc. (Foundation) is a legally separate, tax-exempt component unit of the Georgia Institute of Technology (Institute). The Foundation acts primarily as a fund-raising organization to supplement the resources that are available to the Institute in support of its programs. The Foundation board of trustees is self-perpetuating and consists of forty-five (45) elected trustees, who are alumni of the Institute and five (5) ex-officio trustees. Although the Institute does not control the timing or amount of receipts from the Foundation, the majority of resources, or income thereon that the Foundation holds and invests, are restricted for support of the Institute. Because the resources held by the Foundation are used by, or for the benefit of the Institute, the Foundation is considered a component unit of the Institute and is discretely presented in the Institute's financial statements.

The Foundation is a private nonprofit organization that reports under FASB standards, including FASB Statement No. 117, Financial Reporting for Not-for-Profit Organizations. As such, certain revenue recognition criteria and presentation features are different from GASB revenue recognition criteria and presentation features. The FASB reports were reclassified to the GASB presentation for external financial reporting purposes in these financial statements. The Foundation's fiscal year is July 1 through June 30.

During fiscal year 2007, the Foundation distributed approximately \$84.6 million to the Institute for restricted and unrestricted purposes. Note 10 of this financial report provides information on related party leases between the Foundation and the Institute. Complete financial statements for the Foundation can be requested at the following address: Georgia Tech Foundation, Inc., Controller's Office, 760 Spring Street N.W., Suite 400, Atlanta, GA 30308.

Investments for Component Units:

The Georgia Tech Foundation, Inc. holds investments totaling \$1.348 billion as of June 30, 2007, of which \$353.6 million is the corpus of the endowment (permanently restricted). The corpus is nonexpendable, but the earnings on the investments may be spent in accordance with donor restrictions or in accordance with the Foundation's spending policy. The Foundation has established a spending policy in which up to 6% of the twelve (12) quarter average market values of the endowment funds are allocated from the earnings for expenditure. In fiscal year 2007, the Foundation allocated 5.10% of that average.

Georgia Tech Athletic Association

Georgia Tech Athletic Association (the Athletic Association) is a legally separate, tax-exempt component unit of the Georgia Institute of Technology (Institute). The Athletic Association administers the Institute's intercollegiate athletics program, including fund-raising to support scholarships. The 14-member association board of trustees is appointed predominantly by the President of the Georgia Institute of Technology, and consists of faculty, alumni, students, and friends of the Institute. Although the Institute does not control the timing or amount of receipts and disbursements from the Athletic Association, all of the resources are restricted to support the intercollegiate athletic program for Georgia Tech. Because these resources are used for the benefit of the Institute, the Athletic Association is considered a component unit of the Institute and is discretely presented in the Institute's financial statements.

The Athletic Association is a private nonprofit organization that reports under FASB standards, including FASB Statement No. 117, Financial Reporting for Not-for-Profit Organizations. As such, certain revenue recognition criteria and presentation features are different from GASB revenue recognition criteria and presentation features. The FASB reports were reclassified to the GASB presentation for external financial reporting purposes in these financial statements. The Athletic Association's fiscal year is July 1 through June 30.

During the year ended June 30, 2007, the Athletic Association distributed approximately \$8.5 million to the Institute for athletic scholarship support and other payments that were either expense reimbursements or support for Institute programs. Complete financial statements for the Athletic Association can be obtained from the Georgia Tech Athletic Association, Attention: Mollie Simmons Mayfield, Assistant Director of Athletics, 150 Bobby Dodd Way, NW, Atlanta, GA 30332-0455.

Annual debt service requirements to maturity for the Athletic Association's note payable are as follows:

Revenue Bonds Payable:

In December 2001, the Development Authority of Fulton County issued the Georgia Tech Athletic Association Revenue Bonds, Series 2001 ("Series 2001 Bonds") with a par value of \$112,080,000 to finance the construction of a new baseball stadium, demolish a portion of the Georgia Tech Football stadium, the construction of certain improvements thereto, other miscellaneous capital improvements, and to refinance the outstanding principal on the Series 1995 Bonds and other borrowings. The interest rates on the bonds range from 4% to 5.5% and the bonds mature in October 2032.

On March 16, 2004, the Athletic Association entered into a master swap agreement with UBS AG, Stamford Branch ("UBS"), an investment bank, and simultaneously sold UBS an Interest Rate Swaption ("swaption"). The swaption represents an option to enter into an interest rate swap. The swaption premium generated by this contract was an upfront payment to the Athletic Association of \$2,367,000. In exchange for the swaption premium, UBS gains the right (but not the obligation) to enter into a specified swap agreement with the Athletic Association beginning on April 1, 2012. If the swaption is exercised, the Athletic Association and UBS will swap interest rate payments. The Athletic Association will pay interest to UBS based on the stated rates in the swap agreement. UBS would then pay the Athletic Association a floating rate based on the Bond Market Association Municipal Swap Index plus 21 basis points (0.21%), which approximates the expected interest cost on the variable rate refunding bonds. At June 30, 2007, the swaption had a fair value (representing a liability) of \$5,110,882, as calculated by UBS. The swaption premium is recorded as a component of bonds payable in the statement of net assets and is being amortized on a straight-line basis over the remaining life of the bonds as a component of interest expense in the statement of revenues, expenses, and changes in net assets.

GATV provides capital and operating support for technology transfer and economic activities including ATDC incubator facilities and services to ATDC affiliated companies.

GATV is a private nonprofit organization that reports under FASB standards, including FASB Statement No. 117, Financial Reporting for Not-for-Profit Organizations. As such, certain revenue recognition criteria and presentation features are different from GASB revenue recognition criteria and presentation features. The FASB reports were reclassified to the GASB

presentation for external financial reporting purposes in these financial statements. Georgia Advanced Technology Ventures fiscal year is July 1 through June 30.

During the year ended June 30, 2007, GATV distributed \$237,946 to the Institute for operating expenses. Complete financial statements for GATV can be requested at the following address: Georgia Advanced Technology Ventures, Inc., Treasurer's Office, Lyman Hall, Room 315, Atlanta, GA 30332-0257, Attention: Joel Hercik.

Prior Period Restatement:

GATV understated the value of unconditional promises to give and unrestricted donations by \$821,522 at June 30, 2006. This was the result of an unrecorded pledge, which was made in fiscal year 2006 from TUFF. Accordingly, the financial statements have been restated to properly record this activity. The effect of the correction of this prior period error was to increase unrestricted net assets by \$821,522.

Investments for Component Units:

GATV holds investments in the amount of \$1.005 million. These funds are invested in Georgia Venture Partners, LLC.

Capital Assets for Component Units:

GATV holds the following Capital Assets as of June 30, 2007:

Capital Lease Obligations:

GATV is party to a lease agreement with TUFF ATDC LLC under which GATV leases space on the first through third floors of the Centergy One Building on Fifth Street in Atlanta. GATV subleases this space to organizations compatible with its mission. The lease extends for thirty years, after which GATV may purchase the property for a nominal charge. The leased space was occupied in August 2003.

GATV is also party to a lease agreement with TUFF GATV45 LLC under which GATV leases space on the fourth and fifth floors of the Centergy One Building, which it subleases to organizations compatible with its mission. This lease commenced April 1, 2005, and extends to December 2034, at which time GATV may purchase the property for a nominal charge. Additionally, GATV may purchase the property during the lease term at an amount determined by a formula accounting for interest rates and the total previous payments made.

The properties under the above capital leases are recorded as assets in the accompanying financial statements at the value of certain pre-occupancy payments plus the present value of the future minimum lease payments. The obligations under the capital lease have been recorded at the present value of future minimum lease payments, discounted at an interest rate appropriate to GATV's estimated borrowing rate at the time of lease inception. Those interest rates are 6.25% for floors one through three and 7.75% for floors four and five. The capital lease obligation balance at June 30, 2007 includes \$1,288,478 in accrued, but unpaid interest.

GATV is party to a lease agreement with TUFF TEPB LLC under which GATV leases a building at Technology Enterprise Park. GATV subleases space in the building to organizations compatible with its mission. This lease commenced June 30, 2007 and extends to June 30, 2037, at which time GATV may purchase the property during the lease term at an amount determined by a formula accounting for interest rates and the total previous payments made.

The property under the above capital lease is recorded as building, infrastructure and leasehold improvement assets in the accompanying financial statements. The obligations under the capital lease have been recorded at the value of the contractor's cost of construction plus capitalized interest during the construction period. The effective overall average interest rate on the purchase, given an escalating lease payment schedule over the life of the agreement, is 9.078%.

Future minimum lease payments under the capital leases, and the net present value of future minimum lease payments are as follows at June 30, 2007:

		Capital Leases
Year ending June 30:		
2008	1	\$6,264,254

Notes and Loans Payable:

GATV has a line of credit arrangement with TUFF, with a limit of \$1.9 million. Interest at prime plus 2% is payable each December 31; however, GATV currently chooses to make interest payments on a quarterly basis. Principal is payable within 30 days of demand by TUFF. No collateral is specified, but GATV is required to obtain the consent of TUFF before granting a security interest in its general assets to any other entity. At June 30, 2007, advances under this line of credit total \$1.6 million.

GATV has a long-term note payable to TUFF with monthly payments of \$4,164 through October 2015 at 6% interest. The outstanding principal balance of the loan at June 30, 2007 is \$327,032.

GATV has a long-term note payable to TUFF requiring monthly payments, with the principal maturing October 2033 at 6.55% interest. The loan is secured by Technology Enterprise Park land. The outstanding principal balance of the loan at June 30, 2007 is \$6,120,320.

Georgia Tech Facilities, Inc.

Georgia Tech Facilities, Inc. (Facilities) is a legally separate, tax-exempt component unit of the Georgia Institute of Technology (Institute). Facilities constructs research and auxiliary buildings and other structures for use by the Institute and then leases the completed buildings/structures to the Institute. The eight-member Facilities board is appointed by the President of the Georgia Institute of Technology and consists of alumni and friends of Georgia Tech. Although the

Institute does not control the timing or amount of receipts and disbursements for Facilities, its resources and income are restricted to support the construction activities of Georgia Tech. Because these restricted resources held by Facilities can only be used by, or for the benefit of the Institute, Facilities is considered a component unit of Georgia Tech and is discretely presented in the Institute's financial statements.

Georgia Tech Facilities, Inc. is a private nonprofit organization that reports under FASB standards, including FASB Statement No. 117, Financial Reporting for Not-for-Profit Organizations. As such, certain revenue recognition criteria and presentation features are different from GASB revenue recognition criteria and presentation features. The FASB reports were reclassified to the GASB presentation for external financial reporting purposes in these financial statements. Facilities fiscal year is July 1 through June 30.

Investments carried as capital assets valued at \$157,687,000 are included in the Facilities financial statements. The corresponding buildings and associated long-term debt are included in the Institute's report. Note 10 of this financial report provides information on related party leases. During fiscal 2007, Facilities distributed \$363,000 to the Institute for restricted and unrestricted purposes. Complete financial statements for Facilities can be obtained from the following address: Georgia Tech Facilities, Inc., Treasurer's Office, Lyman Hall, Room 315, Atlanta, GA 30332-0257, Attention: Joel Hercik.

Prior Period Restatement:

Georgia Tech Facilities, Inc. did not properly record capitalized interest for certain projects during relevant periods. In addition, Facilities did not appropriately account for direct financing leases with the Institute. Accordingly, the financial statements have been restated to properly capitalize interest and reflect Facilities' investment in direct financing leases, which are reported as Investments in Real Estate on the Statement of Net Assets. The effect of the correction on beginning net assets was a decrease of (\$4,400,000).

Investments for Component Units:

Georgia Tech Facilities, Inc. holds investments in the amount of \$157.7 million on its balance sheet which is composed of investments in Real Estate.

Georgia State University

Georgia State University Foundation, Inc.

Georgia State University Foundation, Inc. (Foundation) is a legally separate, tax-exempt component unit of Georgia State University (University). The Foundation acts primarily as a fund-raising organization to supplement the resources that are available to the University in support of its programs. The 37-member board of the Foundation, of which 6 members are exofficio, is self-perpetuating and consists of graduates and friends of the University. Although the University does not control the timing or amount of receipts from the Foundation, the majority of resources that the Foundation holds and invests are restricted to the activities of the University by the donors. Because these restricted resources held by the Foundation can only be used by, or for the benefit of the University, the Foundation is considered a component unit of the University and is discretely presented in the University's financial statements.

The Foundation is a private nonprofit organization that reports under FASB standards, including FASB Statement No. 117, Financial Reporting for Not-for-Profit Organizations. The fiscal year of the Foundation is July 1 through June 30.

During the year ended June 30, 2007, the Foundation distributed \$12,158,055 to the University. A copy of the annual audited financial statements for the Foundation can be obtained from James F. Winters, III, Controller, Georgia State University Foundation, P.O. Box 3963, Atlanta, GA 30302-3963 or in person at One Park Place South, Atlanta, GA.

Prior Period Adjustment:

Beginning Net Assets for fiscal 2007 were adjusted for a prior period adjustment of (\$4,169,656), representing fiscal year 2006 interest earned on the proceeds from tax-exempt

bonds. This amount was recorded as interest income; however, should have been netted against the capitalized interest expense in accordance with FASB Statement Number 62. The restatement resulted in the interest income, property and equipment, and net asset account balances for 2006 to be reduced by \$4,169,656.

Investments for Component Units:

Georgia State University Foundation holds endowment and other investments in the amount of \$130.7 million. The Foundation determines the spendable amounts for endowment funds using a total return formula and makes no spending allocations to restricted funds from the operating portfolio. Income from the operating portfolio is used to fund the Foundation's administrative activities pursuant to an unrestricted spending policy. The Trustees of the Foundation adopted an endowment spending policy that provides for the allocation of endowment funds at the rate of 70% of the previous year's allocation plus 30% of the current year's market values at a spending rate of 4.5% of the market value of the endowment funds. A 1% management fee is used to fund the Foundation's administrative activities. The balance of the return is applied to the value of the endowment funds.

Capital Lease Obligations:

Alpharetta Campus Facilities Capital Lease

On September 23, 1998, \$10,600,000 of revenue bonds were issued by the Development Authority of Alpharetta, Georgia (the ""Authority"") for the purpose of financing the costs of acquiring, constructing and installing educational facilities located in the City of Alpharetta and are to be leased by the Foundation. The bonds are special limited obligation bonds payable by the Development Authority from lease payments made to it by the Foundation. The lease obligates the Foundation, on a limited recourse basis, to make lease payments sufficient to pay 83.5% of principal and interest on the bonds with the balance to be paid by the Authority. The Foundation in turn subleases the facilities to the Board of Regents of the University System of Georgia (Board of Regents) for the use of the University. The liability of the Foundation is limited to the interest of the Foundation in the project and the rents, profits, issues, products and proceeds thereof. The City of Alpharetta is obligated to make 100% of the principal and interest payments are solved from the project are insufficient for such purposes. The lease liability at June 30, 2007 was \$6,433,675.

Rialto Center Facilities Capital Lease

During 1994, the Foundation purchased and has since renovated facilities currently occupied by the University's School of Music. The project is being financed through contributions to the Foundation and through bonds issued by the Downtown Development Authority of the City of Atlanta (the "Authority"). The Foundation has entered into long term lease commitments with TUFF to provide for the debt service payments on the bonds and other bond financing related expenses. The Foundation in turn leases the facilities to the University through a series of one year renewable lease agreements. Title to the two office buildings will pass to the Foundation at the end of the lease period or the retirement of the bonds, whichever occurs first. During 2004, the 1994 bonds issued by the "Authority" were refunded to obtain savings in debt service and to obtain funds for improvements to the Rialto Theater. Accordingly, the "Authority" entered into a new loan agreement with TUFF and a new agreement with the Foundation as the guarantor of the bonds. The guarantee is expressly limited to the unrestricted income and unrestricted assets of the Foundation.

The terms of the long-term lease commitment between TUFF and the Foundation were modified to reflect the new interest rate of the bonds, the additional proceeds available for capital improvements, the additional bond financing related expenses and extension of the term of the lease through November 1, 2015. Pursuant to this transaction, the Foundation also formed Rialto Center, LLC, a single member LLC with the Foundation as the sole member, for the purpose of holding the related capital lease. The lease liability at June 30, 2007 was \$3,288,781.

Revenue Bonds Payable:

Student Recreation Center Bonds

On October 15, 1998, \$33,430,000 of revenue bonds were issued by the Atlanta Development Authority (ADA) with the proceeds to be loaned to the Foundation for the purpose of financing the acquisition, construction, improvement and equipping of a student recreation center for the benefit of the University. The bonds are special limited obligation bonds of the ADA payable from funds received from the Foundation pursuant to a promissory note between the ADA and the Foundation. The Foundation leases the facilities to the Board of Regents for the use of the University. The Foundation's liability on the note is limited to its interest in the project and the rents and revenues from the project, including amounts received pursuant to the rental agreement with the Board of Regents. Payment of principal and interest on the bonds are insured by AMBAC Assurance Corporation. Principal payments are to be made annually to October 1, 2018. Interest is paid semi-annually also through 2018 at a rate specified in the revenue bonds ranging from 3.60% to 4.60%. The bond liability at June 30, 2007 was \$24,975,000.

Piedmont Ellis Bonds

On September 8, 2005, \$161,330,000 of tax-exempt and taxable revenue bonds were issued by the Atlanta Development Authority (ADA) on behalf of the Foundation with the proceeds to be used for the purpose of financing the acquisition, construction and equipping of certain land, buildings and personal property to be used as a student housing project. The project has approximately 1,984 beds, including community activity facilities, site amenities and parking for approximately 786 vehicles. There is a 22-month construction schedule for the project to be completed and open for occupancy in the fall semester of 2007. The real property upon which the project is located is owned by the Board of Regents and leased to the Foundation pursuant to a Ground Lease for a construction term of up to two years. Upon completion of the project, the Foundation will lease the facility to the Board of Regents on an annually-renewable basis for a

term of 33 years for the use and benefit of the University. Principal payments are to be made annually starting September 1, 2009 and ending September 1, 2036.

Interest is paid semi-annually through 2036 at a rate specified in the revenue bonds ranging from 3.875% to 5.0%. The principal outstanding on the bonds at June 30, 2007 was \$161,330,000 and the unamortized bond premium balance was \$5,984,710.

Panther Place Bonds

On May 31, 2007, \$58,385,000 of revenue bonds (tax-exempt of \$49,175,000 and taxable of \$9,210,000) were issued by the Atlanta Development Authority (ADA) on behalf of the Foundation with the proceeds used to finance the costs of acquiring land, buildings, improvements, machinery, fixtures, furnishings, equipment, and other real and personal property to be used for office space. SunTrust Bank, as tenant may remain in the building for up to five years. Upon expiration of the lease or early termination by SunTrust Bank, the Foundation will lease the property to the Board of Regents of the University System of Georgia on an annually renewable basis. Interest to bond holders is paid monthly by AMBAC Financial Services, LLC (AFS) in accordance with the terms of the interest rate swap agreement. The Foundation is to begin making semi-annual interest payments on January 1, 2008 at a rate of 4.289% on tax-exempt bonds and 5.409% on taxable bonds. The taxable bonds will be refinanced in the year 2012. Principal payments are to be made annually starting July 1, 2008 and ending July 2037. The bond liability at June 30, 2007 was \$58,385,000.

Georgia State University Research Foundation, Inc.

Georgia State University Research Foundation, Inc. (Research Foundation) is a legally separate, tax-exempt component unit of Georgia State University (University) and was established to contribute to the scientific, literary, educational, and charitable functions of the University in securing gifts, contributions, and grants from individuals, private organizations, and public agencies, and in obtaining contracts with such individuals or entities for the performance of sponsored research, development, or other programs by the various colleges, schools,

departments or other units of the University. Most of the research grants awarded to the Research Foundation are subcontracted to the University, which is responsible for the fiscal administration of the grants.

The ten member board of the Research Foundation is self-perpetuating and consists of faculty and administrators of the University. Because the resources held by the Research Foundation can only be used by or for the benefit of the University, the Research Foundation is considered a component unit of the University and is discretely presented in the University's financial statements.

The Research Foundation is considered a special-purpose government entity engaged only in business-type activities and is required to follow all applicable GASB pronouncements. The Research Foundation's fiscal year is July 1 through June 30.

During the year ended June 30, 2007, the Research Foundation paid to the University \$50,337,959 in grant revenue and \$586,622 for support of research activities. Complete financial statements for the Research Foundation can be obtained from the office of the Georgia State University Research Foundation, Inc., Alumni Hall, 30 Courtland Street, Suite 219, Atlanta, GA 30303.

Deposits and Investments for Component Units:

Deposits:

The custodial credit risk for deposits is the risk that in the event of a bank failure, the Research Foundation's deposits may not be recovered. In lieu of a surety bond, the depository may pledge as collateral any one or more of the following securities as enumerated in the Official Code of Georgia Annotated Section 50-17-59:

- 1. Bonds, bills notes, certificates of indebtedness or other direct obligations of the United States or of the State of Georgia.
- 2. Bonds, bills, notes, certificates of indebtedness or other obligations of the counties or municipalities of the State of Georgia.
- 3. Bonds of any public authority created by the laws of the State of Georgia, providing that the statute that created the authority authorized the use of the bonds for this purpose.
- 4. Industrial revenue bonds and bonds of development authorities created by the laws of the State of Georgia.
- 5. Bonds, bills, certificates of indebtedness, notes or other obligations of a subsidiary Authority of the United States government, which are fully guaranteed by the United States government, both as to principal and interest and debt obligations issued by the Federal Land Bank, the Federal Home Loan Bank, the Federal Intermediate Credit Bank, the Central Bank for Cooperatives, the Farm Credit Banks, the Federal Home Loan Mortgage Association, and the Federal National Mortgage Association.
- 6. Insurance of accounts provided by the Federal Deposit Insurance Corporation and the Federal Savings and Loan Insurance Corporation.

At June 30, 2007, the Research Foundation's carrying amount of deposits was \$7,942,259 and the bank balance was \$8,585,047. Of the bank balance, \$100,000 was covered by FDIC

insurance, and \$6,480,416 was collateralized by the State of Georgia pledging pool which thereby guarantees collateralization of any uninsured bank deposit balances. The remaining uncollateralized balance of \$2,004,631 consists of cash equivalents held by investment custodians.

Investments:

The Research Foundation's investments as of June 30, 2007 are presented below. All investments are presented by investment type and debt securities are presented by maturity.

		Investment Maturity

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates of debt investments will adversely affect the fair value of an investment. The Research Foundation's policy for managing interest rate risk is divided between short-term and long-term investments. Short-term investments will have a maximum maturity of eighteen months to five years depending on the type of investment. Longterm investments are managed using a planning timeline of five years or more and overall risk measurements rather than specific maturity limits.

Credit Quality Risk

Credit quality risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The Research Foundation's investment policies are consistent with the investment policies of Georgia State University Foundation, Inc. The Research Foundation does not have a formal policy related to credit quality risk of investments.

The investments subject to credit quality risk are reflected below:

	Fair Value	AAA	AA	А	Baaa
Related Debt Investments Mutual Bond Fund	\$657,022	\$528,443	\$33,048	\$50,591	\$44,940
	\$657,022	\$528,443	\$33,048	\$50,591	\$44,940

Custodial Credit Risk

Custodial credit risk for investments is the risk that, in the event of a failure of the counterparty to a transaction, the Research Foundation will not be able to recover the value of the investment or collateral securities that are in the possession of an outside party. The Research Foundation does not have a formal policy for managing custodial credit risk for investments.

At June 30, 2007, \$4,463,141 of the Research Foundation's applicable investments were uninsured and held by the Research Foundation's counterparty in the Research Foundation's name.

Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributed to the magnitude of an entity's investment in a single issuer. The Research Foundation's policy for managing concentration of credit risk is divided amongst investment type as follows:

Domestic equities	44%
International equities	7%
Bonds	16%
Real estate	11%
Alternative investments	22%

Foreign Currency Risk

Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment or a deposit. The Research Foundation's investments are not exposed to foreign currency risk as securities denominated in currencies other than the U.S. dollar are not permissible by the Research Foundation's investment policy.

Medical College of Georgia

MCG Health, Inc.

MCG Health, Inc. (Company) is a legally, separate tax-exempt component unit of Medical College of Georgia (College). The Company is organized to further the health sciences, patient care, research, and education mission of the Medical College of Georgia Hospitals and Clinics (Hospital). The Hospital, which is owned by the Board of Regents of the University System of Georgia (Regents), consists of a 632 licensed bed acute care hospital and related outpatient care facilities principally located in Augusta, Georgia. Because of the special relationship with the College, the Company is considered a component unit and is discretely presented in the College's financial statements.

The Company utilizes the accrual basis of accounting using the economic resources measurement focus. Pursuant to, and as permitted by GASB Statement No. 20, Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities That Use Proprietary Fund Accounting, the Company has elected to apply the provisions of all relevant pronouncements of the Financial Accounting Standards Board (FASB), including those issued after November 30, 1989, that do not conflict with or contradict GASB pronouncements. The Company's fiscal year is July 1 through June 30.

Complete financial statements for the Company can be obtained from the Administrative Office at 1120 15th Street, Augusta, Georgia 30912.

Medical College of Georgia Foundation, Inc.

Medical College of Georgia Foundation, Inc. (Foundation) is a legally separate, tax-exempt component unit of Medical College of Georgia (College). The Foundation acts primarily as a fundraising organization to supplement the resources that are available to the College in support of its programs. The Foundation functions as an independent corporation governed by its articles of incorporation, by-laws and its Board of Directors. Although the College does not control the timing or amount of receipts from the Foundation, the majority of resources and income that the Foundation holds and invests are restricted to the activities of the College by the donors. Because these restricted resources held by the Foundation can only be used by, or for the benefit of the College, the Foundation is considered a component unit of the College and is discretely presented in the College's financial statements.

The Foundation is a private nonprofit organization that reports on a modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. Under this basis, revenue and the related assets are recognized when collected rather than when earned and expenses are generally recognized when paid rather than when incurred. Consequently, contributions receivable from donors, investment income receivables, accounts payable to vendors and accrued expenses are not included in the consolidated financial statements. The modified cash basis reports were

reclassified to the GASB presentation for external financial reporting purposes in these financial statements. The Foundation's fiscal year is July 1 through June 30.

During the year ended June 30, 2007, the Foundation distributed \$7.8 million to the College for both restricted and unrestricted purposes. Complete financial statements for the Foundation can be obtained from the Administrative Office at 919 15th Street, FI-1036, Augusta, GA 30912.

The Medical College of Georgia Physicians Practice Group Foundation

The Medical College of Georgia Physicians Practice Group Foundation (PPG) is a legally separate, tax-exempt component unit of Medical College of Georgia (College). PPG acts primarily as a non-profit organization for the purpose of enhancing the clinical, research, and

educational missions of the College and billing and collecting for medical services provided to patients. Revenues are obtained primarily from physician fees charged to patients at Medical College of Georgia Hospital and Clinics, which is operated by MCG Health, Inc. PPG Properties, LLC is a limited liability company formed in 2001 by PPG to manage real estate rental properties. PPG Alternative Collections, LLC is a limited liability company formed in 2003 by PPG to bill and collect for anesthesia services provided to patients. Georgia Esoteric and Molecular Labs, LLC was formed in 2004 by PPG to operate a specialized pathology laboratory with genetic or molecular testing capabilities. MCG-PPG Cancer Research Center, LLC was formed in 2004 by PPG to construct, own and operate a portion of a building to house a cancer research center on the campus of MCG. PPG is the sole partner and has sole voting control of each LLC. Because PPG's purpose is to support the clinical, research, and educational missions of the College, it is considered a component unit of the College and is discretely presented in the College's financial statements.

PPG is a private non-profit organization that reports under FASB standards, including FASB Statement No. 117, Financial Reporting for Not-for-Profit Organizations with the exceptions as noted below. As such, certain revenue recognition criteria and presentation features are different from GASB revenue recognition criteria and presentation features. PPG's consolidated financial statements have been prepared substantially on the basis of cash receipts and cash disbursements with the exception of the following: interest earned on investments, salary supplements due to the College, incentive compensation, and retirement plan contribution expense are accounted for using the accrual method of accounting. Additionally, four-year scholarships funded for College students are expensed in the year awarded, and property and equipment are capitalized and depreciated.

Other adjustments required under accounting principles generally accepted in the United States of America for the accrual basis of accounting have not been reflected in the accompanying financial statements, including the equity method of accounting for PPG's investments in a joint venture. The equity method of accounting requires that the carrying value of investments meeting certain criteria be adjusted to reflect the investor's share of the investee's income and losses with the income or losses included in the statement of activities.

The FASB reports were reclassified to the GASB presentation for external financial reporting purposes in these financial statements. The PPG's fiscal year is July 1 through June 30.

During the year ended June 30, 2007, the PPG distributed \$53.9 million to the College for salaries and departmental support. Complete financial statements for the PPG can be obtained from the Administrative Office at 1499 Walton Way, Suite 1400, Augusta, Georgia 30901.

Investments for Component Units:

PPG invests in mutual funds, equity securities and debt securities, which are measured at fair value. For investments other than common stock and mutual funds, classification between current and non-current is determined based upon individual investment maturity dates. Investments in common stock and mutual funds are actively traded and classified as current. Investment income or loss (including realized gains and losses, interest and dividends) is included in the nonoperating revenue section of the accompanying Statement of Revenues, Expenses and Changes in Net Assets.

PPG administers a deferred compensation plan for various current and former MCG faculty members. Deferred Compensation is reported in Other Long Term Liabilities in the Statement of Net Assets and represents the accounts held on behalf of these members in the amount of \$558,885 at June 30, 2007.

Medical College of Georgia Research Institute, Inc.

Medical College of Georgia Research Institute, Inc. (Institute) is a legally separate, tax-exempt component unit of Medical College of Georgia (College). The Institute was established in 1980 to contribute to the educational, research and service functions of the College in obtaining contracts from individuals, industrial or other private organizations, government or other public agencies for the performance of sponsored research, development or other programs by the various departments or other units of the College. All research contracts awarded to the Institute are subcontracted to the College, which is responsible for the fiscal administration of the research projects. Although the College does not control the timing or amount of activity, all grant awards are subcontracted and managed by the College. Because of the special relationship, the Institute is considered a component unit of the College and is discretely presented in the College's financial statements.

The Institute's financial statements have been prepared in accordance with the accounting principles generally accepted in the United States of America as prescribed by the Governmental Accounting Standards Board ("GASB"), in order to be consistent with the accounting principles followed by its primary government, the Medical College of Georgia. The Institute's fiscal year is July 1 through June 30.

During the year ended June 30, 2007, the Institute subcontracted approximately \$51.2 million of research projects to the College. Complete financial statements for the Institute can be obtained from the Medical College of Georgia's Division of Sponsored Program Administration at Medical College of Georgia, Augusta, Georgia 30912.

Deposits and Investments

As of June 30, 2007, \$7,515,374 of the Institute's bank balance was exposed to custodial credit risk. Of that amount, \$200,000 was insured by Federal depository insurance and \$7,315,374 was uninsured and uncollateralized.

The Institute had no investments as of June 30, 2007.

Capital Assets for Component Units:

The Institute's Capital Asset activity for the year ending June 30, 2007 was as follows:

Medical College of Georgia Dental Foundation

Medical College of Georgia Dental Foundation (Foundation) is a legally separate, tax-exempt component unit of Medical College of Georgia (College). The objectives and purposes of the Dental Foundation are to acquire and administer funds and property which are derived from fees charged for services rendered in the practice of dentistry at the School of Dentistry at the Medical College of Georgia by members of the faculty, residents and hygienists of the School of Dentistry. Dental Foundation funds are used to maintain and improve the high standard of instruction at the Medical College of Georgia Dental School for advanced study by members of the School's student body and faculty and for research in the dental health field. Although the College does not control the timing or amount of receipts from the Foundation, the majority of resources or income is used in direct support of Medical College and is discretely presented in the College's financial statements.

The Foundation is a private nonprofit organization that reports under FASB standards, including FASB Statement 117, Financial Reporting for Not-for-Profit Organizations. As such, certain revenue recognition criteria and presentation features are different from GASB revenue

recognition criteria and presentation features. The FASB reports were reclassified to the GASB presentation for external financial reporting purposes in these financial statements. The Foundation's fiscal year is from March 1, 2006 through February 28, 2007. Because the Foundation's year end differs from that of the College, amounts due to or due from the two entities are not consistent in this report.

During the year ended February 28, 2007, the Foundation distributed \$1.2 million to the College for both restricted and unrestricted purposes. Complete financial statements for the Foundation can be obtained from the Administrative Office of Medical College of Georgia, School of Dentistry, AD 1104, Augusta, Georgia 30912.

University of Georgia

The University of Georgia Foundation

The University of Georgia Foundation (the "Foundation") is a legally separate, tax-exempt component unit of The University of Georgia (the "University"). The Foundation acts primarily as a fund-raising organization to supplement the resources that are available to the University in support of its programs. The thirty-six member board of the Foundation is self-perpetuating and consists of graduates and friends of the University. Although the University does not control the timing or amount of receipts from the Foundation, the majority of resources or income thereon that the Foundation holds and invests is restricted to the activities of the University by the donors. Because these restricted resources held by the Foundation can only be used by, or for the benefit of the University, the Foundation is considered a component unit of the University and is discretely presented in the University's financial statements.

The Foundation is a private nonprofit organization that reports under FASB standards, including FASB Statement No. 117, Financial Reporting for Not-for-Profit Organizations. As such, certain revenue recognition criteria and presentation features are different from GASB revenue recognition criteria and presentation features. The FASB reports were reclassified to the GASB presentation for external financial reporting purposes in these financial statements. The Foundation's fiscal year is July 1 through June 30.

During the year ended June 30, 2007, the Foundation distributed \$20,115,391 to and on behalf of the University for both restricted and unrestricted purposes. Complete financial statements for

the Foundation can be obtained from the Foundation Office at 394 South Milledge Avenue, Athens, GA 30602 or from the Foundation's website at <u>www.ugafoundation.org</u>.

Investments for Component Units:

Investments in trust funds and securities with an established market value are carried at market value. The market values for investments are estimated based on quoted market prices for those or similar investments where a market price is available or an amount determined by external investment managers if quoted market prices are not available. Investments in real estate and securities without an established market value are carried at the lower of estimated market value at the date of gift or current market value as estimated by management of the Foundation. Realized gains and losses are computed using the specific identification method.

Temporary investments have an original maturity of greater than three months and represent operating funds in excess of immediate cash requirements. The Board of Trustees of the Real Estate Foundation has designated certain temporary investment balances to fund future obligations. As of June 30, 2007, the temporary investment amount included \$1,276,600 reserved for debt service.

As of June 30, 2007, the long-term investment pool consists of investments in domestic and international equities (72.6%), fixed income instruments (9.8%), private equity investments (4.9%), real estate funds (4.6%), hedge funds (7.2%), timber, gas & oil (0.5%), and deposits (0.4%) that are held by outside investment managers.

Fair value for financial reporting purposes is based on quoted market prices or an amount determined by external investment managers if quoted market prices are not available. Management reviews and evaluates fair value provided by the external investment managers as well as the valuation methods and assessments used in determining the fair value of such investments. Such estimated fair values (amounting to \$410,993,738 for investments with estimated fair values based on quoted market prices and \$169,695,610 for investments with estimated fair values provided by external investment managers at June 30, 2007) may differ from the ultimate realizable value of the investments, and these differences may be material.

Net realized and unrealized gain on investments include \$64,702,427 for investments with estimated fair values based on quoted market prices and \$26,483,392 for investments with estimated fair values provided by external investment managers at June 30, 2007.

Investments are comprised of the following amounts at June 30, 2007:

Notes and Loans Payable: \$50,000,000 Revolving Credit Agreement

During 2002, the Real Estate Foundation established a \$50 million revolving credit agreement with a bank. The agreement expires on November 30, 2007. The revolving credit agreement provides for borrowings or letters of credit at the Real Estate Foundation's option. Credit available under the revolving credit agreement is reduced by outstanding borrowings and outstanding letters of credit. At June 30, 2007, amounts outstanding or issued under this agreement included borrowings of \$10,499,210 and letters of credit and bank reserves of \$8,373,507, resulting in \$31,127,283 available as borrowing capacity under this line. Borrowings under the revolving credit agreement bear interest at the bank's 30-day London InterBank Offered Rate ("LIBOR") plus 32.5 basis points (or 0.325%). At June 30, 2007, the rates applicable to the borrowings were 5.645%.

On July 1, 2005, the cooperative organization agreement between the Foundation and the Board of Regents ended which constituted a termination event under the revolving credit agreement that provided the bank with certain rights after a 90-day forbearance period. Those termination event rights include (1) the ability to require that the Real Estate Foundation prepay a portion of the outstanding loans which are not directly and fully supported by a lease agreement with the Board of Regents and (2) the ability to decline to make any further loans or to issue further letters of credit to the Real Estate Foundation.

In September 2005, the Real Estate Foundation entered into a forbearance agreement where the bank agreed not to call any borrowings or letters of credit and to continue to make loans under certain conditions. On July 1, 2007, effective with the transfer of sole membership of the Real Estate Foundation, the previous termination event was nullified rendering the forbearance agreement obsolete.

All borrowings under this revolving credit agreement are subject to a guarantee requirement except for those borrowings for projects supported by a rental or license agreement with the Board of Regents or the University. As of June 30, 2007, the borrowings subject to this guarantee requirement were \$34,995. The Foundation had guaranteed these obligations of the Real Estate Foundation through June 30, 2007. As of July 1, 2007, the Research Foundation has guaranteed these obligations under this revolving credit agreement.

During 2006, the Real Estate Foundation entered into an interest rate cap agreement effectively limiting the interest rate on the revolving credit agreement to a 6% fixed rate until December 1, 2010. The Real Estate Foundation paid a premium of \$122,000 in connection with this agreement. The fair value of the interest rate cap as of June 30, 2007 is \$42,981 and has been recorded as an asset in accordance with SFAS No. 133. The Real Estate Foundation recorded a loss of \$81,116 on the fair value of the derivative for the year ended June 30, 2007 as an adjustment to interest expense.

\$9,800,000 Credit Agreement

During 2007, the Foundation established a \$9.8 million revolving credit agreement with a bank. The agreement expires in August 2008. The revolving credit agreement provides for borrowings or letters of credit at the Foundation's option. Credit available under the revolving credit agreement is reduced by outstanding borrowings and outstanding letters of credit. As of June 30, 2007, the amount outstanding or issued under this agreement is \$8,083,918, resulting in

\$1,716,082 available as borrowing capacity under this line. Borrowings under the revolving credit agreement bear interest at the bank's adjusted LIBOR rate plus 32.5 basis points (or 0.325%). At June 30, 2007, the rate applicable to the borrowings was 5.65%.

\$1,800,000 Note Payable

During 2000, the Foundation signed a \$1.8 million promissory note agreement with a bank, which expires on December 31, 2019. At June 30, 2007, \$1,090,250 was outstanding under this agreement. Interest is charged at a fixed rate of 7.13%. Principal payments in the amount of \$22,250 are payable quarterly.

\$1,117,865 Note Payable

During 2002, the Foundation signed an \$880,000 promissory loan agreement with a bank, which was amended during 2005 to increase the borrowed amount to \$1,117,865. This agreement expires on May 1, 2012. As of June 30, 2007, \$1,018,155 was outstanding under this agreement. Interest is charged at the bank's 30 day LIBOR rate plus 45 basis points (or 0.45%), or 5.77% at June 30, 2007. Principal and interest are payable monthly.

The Foundation has an outstanding interest rate swap agreement effectively changing the interest rate exposure on the \$1,117,865 note payable from variable to a 5.75% fixed rate over the term of the note payable. As of June 30, 2007, the fair value of the termination benefit of the interest rate swap was \$5,024 and was recorded as an asset in accordance with SFAS No. 133. The Foundation recorded a loss of \$9,464 for the year ended June 30, 2007 as an adjustment to interest expense.

Annual debt service requirements to maturity for Notes and Loans payable are as follows:

Revenue Bonds Payable: \$25,620,000 Bond Issue

In 2001, the Development Authority of the Unified Government of Athens — Clarke County, Georgia (the "Development Authority") issued Revenue Bonds (UGA Real Estate Foundation, Inc. Project), Series 2001 (the "2001 Bonds") and entered into an agreement (the "2001 Loan Agreement") to Ioan \$25,620,000 to the Real Estate Foundation. The 2001 Bonds are secured by a letter of credit issued on behalf of the Real Estate Foundation in favor of the Development Authority under the Real Estate Foundation's \$50 million credit agreement discussed above. During 2002, the Real Estate Foundation used the proceeds of this Ioan to fund purchases and improvements of certain properties.

Borrowings under the 2001 Loan Agreement bear interest payable monthly at a formula rate adjusted each week (3.74% at June 30, 2007). The loan matures in 2031, subject to certain early repayment provisions. During the year ended June 30, 2007, principal payments of \$11,395,000 were made. At June 30, 2007, the balance of this obligation was \$8,425,000.

During 2005, the Real Estate Foundation entered into an interest rate cap agreement effectively limiting the interest rate on a portion of the 2001 Loan Agreement to a 3.5% fixed rate until November 30, 2007. The Real Estate Foundation paid a premium of \$91,000 in connection with this agreement. The fair value of the interest rate cap as of June 30, 2007 was \$15,495, and has been recorded as an asset in accordance with SFAS No. 133. The Real Estate Foundation recorded a loss of \$87,011 on the fair value of the derivative for the year ended June 30, 2007 as an adjustment to interest expense.

\$39,155,000 Bond Issue

In 2002, the Development Authority issued Educational Facilities Revenue Bonds (UGAREF CCRC Building, LLC Project), Series 2002 (the "CCRC Bonds") and entered into an agreement (the "CCRC Loan Agreement") to loan \$39,155,000 to UGAREF CCRC Building, LLC (a single-member limited liability company owned by the Real Estate Foundation) (the "CCRC Entity"). Payment of principal and interest under the CCRC Bonds is insured by a financial guaranty insurance policy and secured by certain real property constituting the facility and by the CCRC Entity's interest in certain rents and leases derived from the facility. The CCRC Entity used the proceeds of this loan to fund construction of the facility which was completed in October 2003.

Borrowings under the CCRC Loan Agreement bear interest payable semi-annually on December 15 and June 15 at fixed rates ranging from 2.5% to 5% depending on the schedule of bond maturities. Principal payments are due on December 15 starting in 2004 and continuing through 2032. During the year ended June 30, 2007, principal payments of \$780,000 were made. At June 30, 2007, the balance of this obligation was \$36,989,507.

\$99,860,000 Bond Issue

In 2002, the Housing Authority of the City of Athens, Georgia, issued Student Housing Lease Revenue Bonds (UGAREF East Campus Housing, LLC Project), Series 2002 (the "Housing Bonds") and entered into an agreement (the "Housing Loan Agreement") to loan \$99,860,000 to UGAREF East Campus Housing, LLC (a single-member limited liability company owned by the Real Estate Foundation) (the "Housing Entity"). Payment of principal and interest under the Housing Bonds is insured by a financial guaranty insurance policy and secured by certain real property constituting the facilities and by the Housing Entity's interest in certain rents and leases derived from the facilities. The Housing Entity used the proceeds of this loan to fund construction of certain real estate projects which were completed in July 2004.

Borrowings under the Housing Loan Agreement bear interest payable semi-annually on December 1 and June 1 at fixed rates ranging from 3% to 5.25% depending on the schedule of bond maturities. The bonds payable, credit agreements, and notes payable require the Foundation and Real Estate Foundation to meet certain covenants. At June 30, 2007 the Foundation and Real Estate Foundation were in compliance with all covenants.

In 2008, the Real Estate Foundation plans to issue \$59 million in bonds at a fixed rate to finance the expansion of a campus facility. During the year ended June 30, 2007, the Real Estate Foundation entered into an interest rate hedge agreement at no cost locking in the then current interest rate on this future borrowing. The fair value of the interest rate hedge as of June 30, 2007, was \$2,046,793 and has been recorded as an asset in accordance with SFAS No. 133. The Real Estate Foundation recorded a gain of \$2,046,793 on the fair value of the derivative for the year ended June 30, 2007, as an adjustment to interest expense.

The University of Georgia Athletic Association, Inc.

The University of Georgia Athletic Association, Inc. (the Athletic Association) is a legally separate, tax-exempt component unit of The University of Georgia (the University). The Association was organized in 1938 as a not-for-profit corporation to promote intercollegiate athletic sports representing the University. The twenty-member board of directors consists of faculty, staff, students, and alumni of the University. Although the University does not control the timing or amount of receipts from the Association, the majority of resources or income thereon that the Association holds and invests are restricted to the athletic activities of the University. Because these restricted resources held by the Athletic Association can only be used by or for the benefit of the University and their management role is significant to the accomplishment of the University's mission, the Athletic Association is considered a component unit of the University and is discretely presented in the University's financial statements.

For financial reporting purposes, the Athletic Association is considered a special purpose government agency engaged only in business type activities, as defined by GASB Statement 34. The Association's fiscal year is July 1 through June 30.

During the year ended June 30, 2007, the Athletic Association made payments to the University for services such as food services, parking services, health services, tuition, gas, electricity, security, and golf course maintenance. These payments totaled \$25,899,753 and were recognized as expenses of the Athletic Association.

Capital assets net of accumulated depreciation of \$187 million are included in the financial statements of the Athletic Association. These capital assets, excluding moveable equipment and construction work in progress, are also included in the University's report. Complete financial statements for the Association can be obtained from the Treasurer's office at 456 East Broad Street, Athens, GA 30602.

Deposits for Component Units:

Funds belonging to the State of Georgia cannot be placed in a depository paying interest longer than ten days without the depository providing a surety bond to the State. In lieu of a surety bond, the depository may pledge as collateral any one or more of the following securities as enumerated in the Official Code of Georgia Annotated Section 50-17-59:

- 1. Bonds, bills notes, certificates of indebtedness or other direct obligations of the United States or of the State of Georgia.
- 2. Bonds, bills, notes, certificates of indebtedness or other obligations of the counties or municipalities of the State of Georgia.
- 3. Bonds of any public authority created by the laws of the State of Georgia, providing that the statute that created the authority authorized the use of the bonds for this purpose.
- 4. Industrial revenue bonds and bonds of development authorities created by the laws of the State of Georgia.
- 5. Bonds, bills, certificates of indebtedness, notes or other obligations of a subsidiary Authority of the United States government, which are fully guaranteed by the United States government, both as to principal and interest and debt obligations issued by the Federal Land Bank, the Federal Home Loan Bank, the Federal Intermediate Credit Bank, the Central Bank for Cooperatives, the Farm Credit Banks, the Federal Home Loan Mortgage Association, and the Federal National Mortgage Association.
- 6. Insurance of accounts provided by the Federal Deposit Insurance Corporation and the Federal Savings and Loan Insurance Corporation.

As authorized in the Official Code of Georgia Annotated Section 50-17-53, the State Depository Board has adopted policies which allow agencies of the State of Georgia the option of exempting demand deposits from the collateral requirements.

At June 30, 2007, the book-carrying amount of the Athletic Association's deposits, including noncurrent cash and cash equivalents, was \$72,965,193 and the bank balance was \$73,819,887.

The Athletic Association's bank balance is classified as follows at June 30, 2007:

Notes Payable-Due to Primary Government:

Under an agreement with The University of Georgia, the Athletic Association assumed the responsibility for a portion of the funding for the construction of the Ramsey Student Center for Physical Activities. In fiscal 1996, the Athletic Association recorded as property approximately \$7,800,000, representing the Athletic Association's share of the Ramsey Center based on estimated usage as defined in the agreement. The Athletic Association paid cash of \$2,858,928, and subsequently recorded a liability of \$4,941,072 at June 30, 1996, representing the remaining principal balance of the obligation. This balance is reported as the note payable to the University of Georgia above and has an outstanding principal balance at June 30, 2007 of \$2,336,428. The principal balance due within one year, \$333,394, is reflected in Due to Primary Government - Current Liabilities. The Association made payments of principal and interest of \$477,917 during

the year June 30, 2007, and will make an equal payment in each succeeding year through 2013. The interest rate associated with this liability is 6.19%.

Notes Payable:

At June 30, 2007, the Athletic Association had an \$87,113 remaining liability for a vendor note payable. The 1998 note was payable over 10 years in annual payments of \$94,518 through 2008. The implicit interest rate is 8.5% and the note is secured by a first priority purchase money security interest on equipment with a net book value of \$1,011,626.

Annual debt service requirements to maturity for Notes and Loans payable are as follows:

Revenue Bonds Payable:

On September 27, 2001, the Development Authority of Athens-Clarke County, Georgia (the Authority) issued \$34 million in Revenue Bonds (UGA Athletic Association, Inc. Project), Series 2001 (the Bonds) and entered into an agreement (the Loan Agreement) to loan \$34 million to the Athletic Association. The Bonds are secured by a letter of credit issued by SunTrust Bank in favor of the Authority. The letter of credit expires on January 15, 2008, and must be renewed annually. Under the Loan Agreement, the Athletic Association is required to use the proceeds of such loan to fund improvements of certain properties as specified in the Loan Agreement. Borrowings under the Loan Agreement bear interest payable monthly at a formula rate adjusted daily (3.89% on June 30, 2007). The loan matures in 2031, subject to certain early repayment provisions. At June 30, 2007, the balance of this obligation was \$33,100,000.

On August 28, 2003, the Development Authority of Athens-Clarke County, Georgia (the Authority) issued \$36 million in Revenue Bonds (UGA Athletic Association, Inc. Project), Series 2003 (the Bonds) and entered into an agreement (the Loan Agreement) to Ioan \$36 million to the Athletic Association. The Bonds are secured by a letter of credit issued by Bank of America, NA in favor of the Authority that expires on August 28, 2007, and must be renewed annually. Under the Loan Agreement, the Athletic Association is required to use the proceeds of such Ioan to fund improvements of certain properties as specified in the Loan Agreement. Borrowings under the Loan Agreement bear interest payable monthly at a formula rate adjusted daily (3.90% on June 30, 2007). The Ioan matures in 2033, subject to certain early repayment provisions. On March 7, 2005, the Association redeemed \$16 million of these bonds. The remaining obligation at June 30, 2007 was \$18,765,000.

On January 27, 2005, the Development Authority of Athens-Clarke County, Georgia (the Authority) issued \$17.47 million in Revenue Bonds (UGA Athletic Association, Inc. Project), Series 2005 (the Bonds) and entered into an agreement (the Loan Agreement) to loan \$17.47

million to the Athletic Association. The Bonds are secured by a letter of credit issued by Bank of America, NA in favor of the Authority that expires on January 27, 2008 and must be renewed annually. Under the Loan Agreement, the Athletic Association is required to use the proceeds of such loan to fund improvements of certain properties as specified in the Loan Agreement. Borrowings under the Loan Agreement bear interest payable monthly at a formula rate adjusted daily (5.32% on June 30, 2007). The loan matures in 2021 and requires yearly principal reductions. At June 30, 2007, the balance of this obligation was \$16,195,000.

On August 25, 2005, the Development Authority of Athens-Clarke County, Georgia (the Authority) issued \$30 million in Revenue Bonds (UGA Athletic Association, Inc. Project), Series 2005B (the Bonds) and entered into an agreement (the Loan Agreement) to loan \$30 million to the Athletic Association. The Bonds are secured by a letter of credit issued by Bank of America, NA in favor of the Authority. The letter of credit expires August 24, 2007, and must be renewed annually. Under the Loan Agreement, the Athletic Association is required to use the proceeds of such loan to fund improvements of certain properties as specified in the Loan Agreement. Borrowings under the Loan Agreement bear interest payable monthly at a formula rate adjusted daily (3.90% on June 30, 2007). The loan matures in 2035, subject to certain early repayment provisions. The June 30, 2007 remaining obligation for these revenue bonds was \$29,500,000.

Interest Rate Swap Agreements

The Athletic Association is a party to interest rate swap agreements that are not recorded in the financial statements. Following are disclosure of key aspects of the agreements.

Objective and Terms - As a means of interest rate management, the Athletic Association entered into three separate interest rate swap transactions with Bank of America, N.A. (the "Counterparty") relating to its variable rate tax-exempt Series 2001 Bonds, tax-exempt Series 2003 Bonds, taxable Series 2005 Bonds and tax-exempt Series 2005B Bonds. Pursuant to an ISDA Master Agreement and Schedule to ISDA Master Agreement each dated as of January 27, 2005 between the Athletic Association and the Counterparty and three Confirmations, the Athletic Association has agreed to pay to the Counterparty a fixed rate of interest in an amount equal to: (1) 3.49% per annum multiplied by a notional amount which is equal to the principal amount of the Series 2001 Bonds until September 2021; (2) 3.38% per annum multiplied by a notional amount which is equal to the principal amount of the Series 2005 Bonds until July 2021; and (4) 3.483% per annum multiplied by the notional amount which is equal to the principal amount of the Series 2005 Bonds until August 2033.

In return, the Counterparty has agreed to pay to the Athletic Association a floating rate of interest in an amount equal to: (1) 67% of LIBOR multiplied by a notional amount which is equal to the principal amount of the Series 2001 Bonds until September 2021; (2) 67% of LIBOR multiplied by a notional amount which is equal to the principal amount of the Series 2003 Bonds until August 2033; (3) LIBOR multiplied by a notional amount which is equal to the principal amount of the Series 2005 Bonds until July 2021; and (4) 67% of LIBOR multiplied by the notional amount which is equal to the principal amount of the Series 2005B Bonds until July 2035. Fair Value – The Athletic Association will be exposed to variable rates if the counterparty to a swap defaults or if a swap is terminated. A termination of the swap agreement may also result in the Athletic Association's making or receiving a termination payment

As of June 30, 2007, the fair value of the interest rate swap agreement on the 2001 Series Bonds was \$848,751, indicating the amount that the counterparty would be required to pay the Athletic Association to terminate the swap agreement.

As of June 30, 2007, the fair value of the interest rate swap agreement on the 2003 Series Bonds was \$620,162, indicating the amount that the counterparty would be required to pay the Athletic Association to terminate the swap agreement.

As of June 30, 2007, the fair value of the interest rate swap agreement on the 2005A Series Bonds was \$418,172, indicating the amount that the counterparty would be required to pay the Athletic Association to terminate the swap agreement.

As of June 30, 2007, the fair value of the interest rate swap agreement on the 2005B series Bonds was \$817,093, indicating the amount that the counterparty would be required to pay the Athletic Association to terminate the swap agreement.

Swap Payments and Associated Debt – As of June 30, 2007, debt service requirements of the variable-rate debt and net swap payments, assuming current interest rates remain the same, for their term were as follows. As rates vary, variable-rate bond interest payments and net swap payments will vary.

Year	Variable I	Variable Rate Bonds			
Ending	Principal	Interest	Swaps, Net	Total	
2008	\$ 2,090,000	\$ 3,936,996	\$ (389,629)	\$ 5,637,367	
2009	2,140,000	3,840,259	(381,464)	5,598,795	
2010	2,195,000	3,741,022	(373,099)	5,562,923	
2011	2,245,000	3,639,551	(364,545)	5,520,006	
2012	2,295,000	3,535,775	(355,814)	5,474,961	
2013-2017	12,380,000	16,028,390	(1,640,024)	26,768,366	
2018-2022	13,990,000	13,020,594	(1,386,855)	25,623,739	
2023-2027	9,080,000	10,683,880	(1,154,744)	18,609,136	
2028-2032	43,480,000	7,690,918	(818,470)	50,352,448	
2033-2037	7,665,000	396,614	(43,617)	8,017,997	
Total	\$ 97,560,000	\$ 66,513,999	\$ (6,908,261)	\$157,165,738	

Credit Risk – As of June 30, 2007, the fair value of the swaps represents the Athletic Association's credit exposure to the Counterparty. Should the Counterparty fail to perform in accordance with the terms of the swap agreements, the Athletic Association faces a possible loss equivalent to \$6.9 million less the cumulative fair value of \$2.7 million. As of June 30, 2007, the Counterparty was rated AAA by Moody's and AA+ by S&P.

Basis Risk – The swaps expose the Athletic Association to basis risk. The interest rate on the Series 2001 Bonds, the Series 2003 Bond and the Series 2005B Bonds is a tax-exempt interest rate while the LIBOR basis on the variable rate receipt on the interest rate swap agreements is taxable. Tax-exempt interest rates can change without a corresponding change in the 30 day LIBOR rate due to factors affecting the tax-exempt market which do not have a similar effect on

the taxable market. The Athletic Association will be exposed to basis risk under the swaps to the extent that the interest rates on the tax-exempt bonds trades at greater than 67% of LIBOR for extended periods of time. The Athletic Association would also be exposed to tax risk stemming from changes in the marginal income tax rates or those caused by a reduction or elimination in the benefits of tax exemption for municipal bonds.

Termination Risk – The interest rate swap agreement uses the International Swap Dealers Association Master Agreement, which includes standard termination events, such as failure to pay and bankruptcy. The Athletic Association or the Counterparty may terminate the swap if the other party fails to perform under the terms of the contract. If the swap is terminated, the variable rate bonds would no longer carry a synthetically fixed interest rate. Also, if at the time of termination, the swap has a negative fair value, then the Athletic Association would be liable to the Counterparty for a payment equal to the swap's fair value.

The Arch Foundation for the University of Georgia, Inc.

The Arch Foundation for the University of Georgia, Inc. (Arch Foundation) is a legally separate, tax-exempt component unit of The University of Georgia (University). The Arch Foundation acts primarily as a fund-raising organization to supplement the resources that are available to the University in support of its programs. The thirty-one member board of the Arch Foundation is self-perpetuating and consists of graduates and friends of the University. Although the University does not control the timing or amount of receipts from the Arch Foundation, the majority of resources or income thereon that the Arch Foundation holds and invests is restricted to the activities of the University by the donors. Because these restricted resources held by the Arch Foundation can only be used by, or for the benefit of the University, the Arch Foundation is considered a component unit of the University and is discretely presented in the University's financial statements.

The Arch Foundation is a private nonprofit organization that reports under FASB standards, including FASB Statement No. 117, Financial Reporting for Not-for-Profit Organizations. As such, certain revenue recognition criteria and presentation features are different from GASB revenue recognition criteria and presentation features. The FASB reports were reclassified to the GASB presentation for external financial reporting purposes in these financial statements. The Arch Foundation's fiscal year is July 1 through June 30.

During the year ended June 30, 2007, the Arch Foundation distributed \$3,708,541 to or on behalf of the University for both restricted and unrestricted purposes. Complete financial statements for the Foundation can be obtained from the External Affairs Office of Financial Services at 394 S. University of Georgia Research Foundation, Inc.

The University of Georgia Research Foundation, Inc. (the Research Foundation) is a legally separate, tax-exempt component unit of The University of Georgia (the University). The Research Foundation serves to enhance the research mission of the University by securing sponsored research funding and by providing funding of special research initiatives. All University intellectual property developed through these research programs are managed by the Research Foundation. The eighteen-member board of directors consists of designated University personnel, appointees of several University constituent groups, and individuals selected by the Research Foundation itself. Although the University does not control the timing or amount of receipts from the Research Foundation, all sponsored research awards are subcontracted to the University and other resources and related income are restricted to benefit the research mission of the University and is discretely presented in the University's financial statements.

The Research Foundation is considered a special-purpose government entity engaged only in business-type activities and is required to follow all applicable GASB pronouncements. The Research Foundation's fiscal year is July 1 through June 30.

During fiscal year 2007, the Research Foundation transferred approximately \$120 million in sponsored research to the University and shows a net payable to the University at June 30 related to this activity. Complete financial statements for the Research Foundation can be obtained from the Treasurer's office at 456 East Broad Street, Athens, GA 30602.

Deposits and Investments for Component Units:

Deposits:

The custodial credit risk for deposits is the risk that in the event of a bank failure, the Research Foundation's deposits may not be recovered. The Research Foundation does not have a deposit policy for custodial credit risk.

At June 30, 2007, the book value of the Research Foundation's deposits was \$9,800,115. The bank and investment account balances at June 30, 2007 were \$10,317,911 of which \$10,217,911 was uninsured. Of these uninsured deposits, \$10,217,000 were collateralized with securities held by the financial institution, by its trust department or agency, but not in the Research Foundation's name and \$911 were uncollateralized.

Investments:

The Research Foundation maintains both short-term and long-term investment policies. Both establish primary and secondary objectives, specify allowable investments, set target investment mix, and provide investment guidelines.

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates of debt investments will adversely affect the fair value of an investment. The Research Foundation's policy for managing interest rate risk is divided between short-term and long-term investments. Short-term investments will have a maximum maturity of eighteen months to five years depending on the type of investment. Long-term investments are managed using a planning timeline of five years or more and overall risk measurements rather than specific maturity limits.

Custodial Credit Risk

Custodial credit risk for investments is the risk that, in the event of a failure of the counterparty to a transaction, the Research Foundation will not be able to recover the value of the investment or collateral securities that are in possession of an outside party. The Research Foundation does not have a formal policy for managing custodial credit risk for investments.

At June 30, 2007, \$34,446,027 of the Research Foundation's applicable investments were uninsured and held by the investment's counterparty in the Research Foundation's name.

Credit Quality Risk

Credit quality risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The Research Foundation's investment policies specify that fixed income securities be of investment grade. The short-term investment policy specifies that corporate bonds be rated BBB (Standard & Poor's) or Baa (Moody's) or higher; the long-term policy requires a BBB (Standard & Poor's) or Baa3 (Moody's) rating or higher. The investment policy also requires that securities that drop below investment grade should be sold at the manager's discretion; in the event that a rating falls below investment grade, the manager will contact the financial advisor and advise them of the proposed strategy for disposition of the security.

The Research Foundation's investments as of June 30, 2007 are presented below. All investments are presented by investment type and fixed income securities are presented by credit quality ratings.

Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributed to the magnitude of an entity's investment in a single issuer. The Research Foundation's policy for managing concentration of credit risk is divided between short-term and long-term investments. For short-term investments, maximum percentages are set for cash and cash equivalents at 15%, asset backed securities at 50% and corporate bonds at 90%, while U.S. Treasuries, U.S. Agencies debt, and certificates of deposit may comprise 100% for the short-term investments. For long-term investment, equities comprise 40-80%, bonds 20-60% and alternative investments can range 0-20%.

As of June 30, 2007, investments in a single issuer where those investments exceed 5% of total investments were as follows:

Federal National Mortgage Association	7%
Core Investment Grade Bond Trust	5%
Government National Mortgage Association	5%

Foreign Currency Risk

Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment or a deposit. The Research Foundation's investments are not exposed to foreign currency risk as securities denominated in currencies other than the U.S. dollar are not permissible by the Research Foundation's investment policy.

Revenue Bonds Payable:

Valdosta State University Foundation, Inc. issued Bonds to finance the acquisition of facilities for Valdosta State University. The bonds mature serially and are collateralized by real estate. The interest rates for the 95 and 98 bonds are 4.8% and 5.0%, respectively. These Bonds are represented as Property and Equipment and a Bond Payable on the Foundation's financial statement. Since the University leases the property from the Foundation, the University has accounted for this transaction as a capital lease and related Lease Obligation. The balance of this obligation was \$2,248,621 as of December 31, 2006.

In June 2004, the Valdosta Housing Authority issued Series 2004 Student Housing Revenue Bonds and loaned the proceeds to VSU Foundation Real Estate I, LLC (a subsidiary). The bonds, serial and term, are secured by pledges of gross receipts from student housing at Valdosta State University. The bonds bear interest at rates ranging from 3.25% to 5.25%. Interest is due semi-annually and principal is due annually. The balance of the obligation at December 31, 2006 is \$35,872,115.

Augusta State University Athletic Association

Augusta State University Athletic Association (the Athletic Association) is a legally separate, tax-exempt component unit of Augusta State University (University). The Athletic Association promotes the educational, athletic, and physical education programs of the University. The Athletic Association leases Forest Hills Golf Club (the Club), an 18-hole golf course, from the Board of Regents of the University System of Georgia for a nominal fee. The Athletic Association in turn has entered into a management agreement with the Augusta Golf Association, Inc. (the AGA) to manage, operate and maintain Forest Hills Golf Club. The income of the Athletic Association is solely derived from the revenues of the Golf Club and interest income. Because these restricted resources held by the Athletic Association can only be used by, or for the benefit of the University and their management role is significant to the accomplishment of the University's mission, the Athletic Association is considered a component unit of the University and is discretely presented in the University's financial statements.

The Athletic Association is a private nonprofit organization that reports under FASB standards, including FASB Statement No. 117, Financial Reporting for Not-for-Profit Organizations. As such, certain revenue recognition criteria and presentation features are different from GASB revenue recognition criteria and presentation features. The FASB reports were reclassified to the GASB presentation for external financial reporting purposes in these financial statements. The Athletic Association's fiscal year is July 1 through June 30.

During the year ended June 30, 2007, the Athletic Association disbursed \$0 funds to the University.

Revenue Bonds Payable:

On June 1, 2006, Fort Valley State University Foundation Property, LLC entered into a loan agreement with the Development Authority of Peach County (the Authority) whereby the Authority would issue certain bonds (June 29, 2006) totaling \$44,060,000 and loan the entire proceeds to the LLC. As part of the loan agreement, the LLC agreed to use the bond proceeds to finance (i) the construction, equipping and installation of certain buildings and personal property to be used as student housing facilities, related parking, a student amenities building, relocation of an existing softball field and infrastructure improvements located on the Fort Valley State University campus, (ii) establish a debt service reserve fund for the Series 2006 Bonds, (iii) fund capitalized interest for the Series 2006 Bonds and (iv) pay cost of issuance of the Series 2006

Bonds, including the insurance policy premium. The principal and interest are payable solely from and secured by a lien upon certain interest in real property and certain assignments of rental income originating from a rental agreement between the LLC and Board of Regents of the University System of Georgia. The rental agreement is for an initial one-year term (annual renewals for thirty years) and will commence following the issuance of a certificate of occupancy estimated in August 2007. The bonds are subject to certain optional and extraordinary mandatory redemption provisions. Additionally, the trust indenture requires the maintenance of certain deposits with a trustee, which are reported in Noncurrent Cash. The serial bonds have various annual maturities with the final payment scheduled for June 1, 2026. The bond discount is amortized on the effective interest rate of the bonds.

Georgia College & State University

Georgia College & State University Foundation, Inc.

Georgia College & State University Foundation, Inc. (Foundation) is a legally separate, taxexempt component unit of Georgia College & State University (University). The Foundation acts primarily as a fund-raising organization to supplement the resources that are available to the University in support of its programs. The thirty-eight member board of the Foundation is selfperpetuating and consists of graduates and friends of the University. Although the University does not control the timing or amount of receipts from the Foundation, the majority of resources or income thereon that the Foundation holds and invests is restricted to the activities of the University by the donors. Because these restricted resources held by the Foundation can only be used by, or for the benefit of the University, the Foundation is considered a component unit of the University and is discretely presented in the University's financial statements.

The Foundation is a private nonprofit organization that reports under FASB standards, including FASB Statement No. 117, Financial Reporting for Not-for-Profit Organizations. As such, certain revenue recognition criteria and presentation features are different from GASB revenue recognition criteria and presentation features. The FASB reports were reclassified to the GASB

presentation for external financial reporting purposes in these financial statements. The Foundation's fiscal year is July 1 through June 30.

During the year ended June 30, 2007, the Foundation distributed \$1,156,729 to the University for both restricted and unrestricted purposes. Complete financial statements for the Foundation can be obtained from the Administrative Office at Campus Box 96, 100 E. Greene Street, Suite 200, Milledgeville, GA 31061.

Prior Period Adjustment

In prior years, the Foundation recognized a lease as an operating lease instead of a direct financing lease. During the year ended June 30, 2007, the Foundation retroactively changed its method of accounting to record this lease as a direct financing lease, in accordance with generally accepted accounting principles. This change had the effect of decreasing the beginning balance in unrestricted net assets by (\$265,817).

Investments for Component Units:

Georgia College & State University Foundation, Inc. holds endowment and other investments in the amount of \$13.4 million. The \$10.2 million corpus of the endowment portion is nonexpendable, but the earnings on the investment may be expended as restricted by the donors. Georgia College & State University Foundation, Inc., in conjunction with the donors, has established a spending plan whereby 5% of the calendar year-end market value of the investment based on a rolling 3 year average can be spent. 95% is to be spent based on donor intent and 5% is to be spent as an administrative fee.

Revenue Bonds Payable:

On December 1, 2003, Property II, LLC entered into a loan agreement with the Development Authority of the City of Milledgeville and Baldwin County whereby the Authority would issue certain bonds totaling \$7,840,000 and loan the entire proceeds to Property II, LLC. As part of the loan agreement, Property II, LLC agreed to use the proceeds to construct and equip a student center and a parking lot located on the campus of the University, to establish a debt service reserve, to establish certain amounts for capitalized interest and to pay the cost of issuance of the

bonds. The principal and interest are payable solely from and secured by a lien upon certain interest in real property and certain assignments of rental income originating from rental agreements between Property II, LLC and the Board of Regents. The rental agreements are annual arrangements and commence following the issuance of a certificate of occupancy. The bonds are subject to certain optional and extraordinary mandatory redemption provisions. The serial bonds have various maturities with the final payment scheduled for September 1, 2022. The balance of the bonds at June 30, 2007 was \$7,310,529, net of unamortized premium of \$10,529.

On July 14, 2004, Property III, LLC entered into a loan agreement with the Development Authority of the City of Milledgeville and Baldwin County whereby the Authority would issue certain bonds totaling \$89,000,000 and loan the entire proceeds to Property III, LLC. As part of the loan agreement, Property III, LLC agreed to use the proceeds to refund and redeem \$55,875,000 in outstanding principal of Property I, LLC, to complete certain uncompleted projects of Property I, LLC, to establish a debt service reserve, to establish certain amounts for capitalized interest and to pay the cost of issuance of the bonds. The principal and interest are payable solely from and secured by a lien upon certain leasehold deeds to secure debt and certain pledged revenues and assignments of rents and leases. The bonds are subject to certain optional and extraordinary mandatory redemption provisions. The serial bonds have various maturities with the final payment scheduled for September 1, 2015. During the year ending June 30, 2007, the 2004 bonds were refunded. The refunding was undertaken to reduce total future debt service payments. The transaction resulted in a net estimated present value economic gain of \$2,117,581.

On June 15, 2007, Property V, LLC entered into a loan agreement with the Development Authority of the City of Milledgeville and Baldwin County whereby the Authority would issue certain bonds totaling \$102,470,000 and loan the entire proceeds to Property V, LLC. As part of the loan agreement, Property V, LLC agreed to use the proceeds to refund and redeem \$89,000,000 in outstanding principal of Property III, LLC, to perform capital renovations, improvements and acquisitions, to establish a debt service reserve, to establish certain amounts for capitalized interest and to pay the cost of issuance of the bonds. The principal and interest are payable solely from and secured by a lien upon certain leasehold deeds to secure debt and certain pledged revenues and assignments of rents and leases. The bonds are subject to certain optional and extraordinary mandatory redemption provisions. The serial bonds have various maturities with the final payment scheduled for October 1, 2033. The balance of the bonds at June 30, 2007 was \$102,138,072, net of unamortized discount of \$331,928.

In connection with the 2007 series bonds, the Foundation entered into an interest rate swap transaction to convert its variable rate bond obligation to fixed rates. The resulting cost of funds is lower than it would have been had fixed rate borrowings been issued directly. The level of fixed rate debt resulting from the effective interest rate swap is 100% of the total bond debt of the 2007 series. A liability from interest rate swap transactions of \$644,572 has been recorded as of June 30, 2007 and is reported as Other Current Liabilities on the Statement of Net Assets. The amount was recorded based on calculated mathematical approximations of market values using certain assumptions regarding past, present, and future market conditions.

Payments of quarterly interest only are required through January 5, 2009, at which time the line of credit matures.

Revenue Bonds Payable:

In September 2001, the Downtown Development Authority of the City of Dahlonega (the Authority) issued \$11.2 million in Revenue Bonds Series 2001A (the Bonds) to allow North Georgia Student Housing LLC, a subsidiary of the North Georgia College & State University Foundation, Inc., to construct Student Housing. On February 27, 2007, the Authority issued Bond Series 2007C in the amount of \$16,215,000 allowing North Georgia Student Housing to retire the 2001A bonds, to pay off an existing debt of \$1,158,000 on 110 acres of land it held for the future use of the University, to provide \$3,000,000 to build a road, sidewalks, walking trails and other infrastructure necessary for future campus development and to lower its cost of capital. The new bonds were issued at an average interest rate of 4.4%. The Series 2007C bonds will mature in 2028. An interest swap termination fee of \$508,000 was paid. The security for the Series 2007C bonds is a rental agreement with the University which will pass title to the University at the final maturity of the bonds. The balance on the bond liability on June 30, 2007 is \$16,215,000.

Also on February 27, 2007 the Authority issued \$29,330,000 in tax-exempt revenue bonds (Series 2007A) and \$940,000 in taxable revenue bonds (Series 2007B) and entered into an agreement to loan the proceeds to North Georgia Parking & Recreation Center, LLC, a

subsidiary of the North Georgia College & State University Foundation, Inc., to construct a new parking deck, a student recreation center and to purchase a 33,000 square foot office building adjacent to campus. The bonds are secured by rental agreements with the University and with BB&T for continuation of the banking business. The loan matures in 2037 and has an average maturity rate of 4.4% on the exempt bonds and 5.35% on the taxable. Upon the final maturity of the bonds, title of the property will transfer to the University. The bond liability at June 30, 2007 was \$30,270,000.

UWG Real Estate Foundation, Inc.

UWG Real Estate Foundation, Inc. (Foundation) is a legally separate, tax-exempt component unit of the University of West Georgia (University). The Foundation constructs research and auxiliary buildings and facilities for use by the University and then leases the completed buildings to the institution. The seven-member board of the Foundation is self-perpetuating and consists of graduates and friends of the University. Although the University does not control the timing or amount of receipts from the Foundation, the majority of resources or income thereon that the Foundation holds and invests is restricted to the real estate activities of the University by the donors. Because these restricted resources held by the Foundation can only be used by, or for the benefit of the University, the Foundation is considered a component unit of the University and is discretely presented in the University's financial statements.

The Foundation is a private nonprofit organization that reports under FASB standards, including FASB Statement No. 117, *Financial Reporting for Not-for-Profit Organizations*. As such, certain revenue recognition criteria and presentation features are different from GASB revenue recognition criteria and presentation features. The FASB reports were reclassified to the GASB presentation for external financial reporting purposes in these financial statements. The Foundation's fiscal year is July 1 through June 30.

Investments carried as leases receivable are valued at \$56.6 million and the associated long-term debt of \$30.9 million are included in the financial statements of the Foundation. The corresponding buildings and associated capital leases are included in the University's report. Note 10 of this financial report provides information on related party leases. Complete financial statements for the Foundation can be obtained from the Treasurer, Office of Business and Finance, 1601 Maple Street, Carrollton, Georgia 30118

Long-term Liabilities for Component Units:

Resident Instruction Bonds are issued by the UWG Real Estate Foundation, Inc. to finance Student Center facilities at University of West Georgia. On August 1, 2004, the Barnesville-Lamar County Industrial Development Authority (the "Authority") issued certain bonds totaling \$16,135,000. Proceeds on the sale of the bonds were loaned to Gordon College Properties Foundations, LLC whose sole member is Gordon College Foundation, Inc. Proceeds of the Series 2004 Bonds were used by Gordon College Properties, LLC to finance or reimburse, in whole or in part, the cost of the construction and equipping of a new student housing complex containing approximately 459 beds, including related parking for approximately 597 vehicles and road and pedestrian walkway improvements (the Project) located on the campus of Gordon College, a unit of the University System of Georgia; fund capitalized interest on the Series 2004 Bonds; fund a debt service reserve fund for the Series 2004 bonds; and pay costs of issuance of the Series 2004 Bonds. The real property upon which the Project is located is owned by the Board of Regents of the University System and will be leased by the Board of Regents to the Properties, LLC pursuant to a Ground Lease. Pursuant to a Rental Agreement, the Properties, LLC will rent the projects, on an annually renewable basis, to the Board of Regents for use by the College. The Board of Regents will make monthly fixed rental payments for the use and occupancy of the Project, in amounts that the Properties, LLC estimates will be sufficient to pay, among other things, debt service on the Series 2004 Bonds. Interest rates on the bonds range from 3% - 5%. The balance owed on the bonds at December 31, 2006 was \$15,099,554.

Macon State College

Macon State College Foundation, Inc.

Macon State College Foundation, Inc. (Foundation) is a legally separate, tax-exempt component unit of Macon State College (College). The Foundation acts primarily as a fund-raising organization to supplement the resources that are available to the College in support of its programs. The twenty-four member board of the Foundation is self-perpetuating and consists of graduates and friends of the College. Although the College does not control the timing or amount of receipts from the Foundation, the majority of resources or income thereon that the Foundation holds and invests is restricted to the activities of the College by the donors. Because these restricted resources held by the Foundation can only be used by, or for the benefit of the College, the Foundation is considered a component unit of the College and is discretely presented in the College's financial statements.

The Foundation is a private nonprofit organization that reports under FASB standards, including FASB Statement No. 117, *Financial Reporting for Not-for-Profit Organizations*. As such, certain revenue recognition criteria and presentation features are different from GASB revenue recognition criteria and presentation features. The FASB reports were reclassified to the GASB presentation for external financial reporting purposes in these financial statements. The Foundation's fiscal year is July 1 through June 30.

During the year ended June 30, 2007, the Foundation distributed \$512,879 to the College for both restricted and unrestricted purposes. Complete financial statements for the Foundation can be obtained from the Development and Alumni Affairs Office at 100 College Station Drive, Macon, GA 31206 or from the College's website at http://www.maconstate.edu/foundation/.

Long-term Liabilities for Component Units:

On December 29, 2005, the Newton County Industrial Revenue Authority effected a revenue bond issue "Series 2005" in the amount of \$22,695,000. These proceeds will fund the building project, which is expected to be completed by July 1, 2007. Rental payments from the Board of Regents of the University System of Georgia will be used to amortize this bonded indebtedness. The repayment of this debt is due in annual installments ranging from \$430,000 to \$1,400,000 through 2035 at 4.6% per annum.

An additional bond issuance (Series 2005) was also effected on December 29, 2005 for the same purpose as the aforementioned issuance. The amount of this issuance was \$2,550,000. This bond issuance was transacted separately because of different security (secured by Newton County through an intergovernmental contract). This was packaged as a single bond that was

sold directly to Wachovia Bank. Consequently, the amortization of this issuance is similar to a conventional loan as opposed to a standard bond issue. The repayment of this debt is due in monthly installments of \$20,472 through January, 2021 at 5.15% per annum.

The Foundation's LLC received a gift of real estate during the years ended December 31, 2005 and 2006. The gift, a tract/parcel of land in Newton County, Georgia, was donated by Mt. Pleasant, LLC for the purpose of the construction of the new Georgia Perimeter College campus in Newton County. The land has been capitalized on the Foundation's books and is included in the asset section of the Statement of Net Assets.

On December 14, 2006, the Atkinson County - Coffee County Joint Development Authority (the "Authority") issued certain bonds totaling \$15,395,000. Proceeds of the sale of the bonds will be loaned to SGC Real Estate Foundation, LLC whose sole member is South Georgia College Foundation, Inc.

Proceeds of the Series 2006 Bonds will be used by SGC Real Estate Foundation, LLC to finance or reimburse, in whole or in part, the cost of construction and equipping of a new student housing complex containing approximately 252 beds including related parking and the acquisition and renovation of the property known as the "Clower Center" all located on the campus of South Georgia College, a unit of the University System of Georgia; fund capitalized interest on the Series 2006 Bonds; fund a debt service reserve fund for the Series 2006 Bonds; and pay costs of issuance of the Series 2006 Bonds. Interest rates on the bonds range from 4% to 6%.

The real property upon which the Project is located is owned by the Board of Regents of the University System of Georgia and is leased by the Board of Regents to SGC Real Estate Foundation, LLC pursuant to a Ground Lease. Pursuant to the commencement of a Rental Agreement upon completion of the project, SGC Real Estate Foundation, LLC will rent the Project, on an annually-renewable basis, to the Board of Regents for use by the College. The Board of Regents will make monthly fixed rental payments for the use and occupancy of the Project, in amounts that SGC Real Estate Foundation, LLC estimates will be sufficient to pay, among other things, the debt service on the Series 2006 Bonds.

Annual debt service requirements to maturity for Student Housing revenue bonds payable are as follows:

Waycross College

Waycross College Foundation, Inc.

Waycross College Foundation, Inc. (Foundation) is a legally separate, tax-exempt component unit of Waycross College (College). The Foundation acts primarily as a fund-raising organization to supplement the resources that are available to the College in support of its programs. The twenty-one member board of the Foundation is self-perpetuating and consists of graduates and friends of the College. Although the College does not control the timing or amount of receipts from the Foundation, the majority of resources or income thereon that the Foundation holds and invests is restricted to the activities of the College by the donors. Because these restricted resources held by the Foundation can only be used by, or for the benefit of the College, the Foundation is considered a component unit of the College and is discretely presented in the College's financial statements.

The Foundation is a private nonprofit organization that reports under FASB standards, including FASB Statement No. 117, *Financial Reporting for Not-for-Profit Organizations*. As such, certain revenue recognition criteria and presentation features are different from GASB revenue recognition criteria and presentation features. The FASB reports were reclassified to the GASB presentation for external financial reporting purposes in these financial statements. The Foundation's fiscal year is July 1 through June 30.

During the year ended June 30, 2007, the Foundation distributed \$85,555 to the College for both restricted and unrestricted purposes. Complete financial statements for the Foundation can be obtained from the Foundation Office at 2001 South Georgia Parkway, Waycross, GA 31503.

Investments for Component Units:

Waycross College Foundation holds endowment and other investments in the amount of \$1.5 million. The \$1.4 million corpus of the endowment portion is nonexpendable, but the earnings on the investment may be expended as restricted by the donors. Waycross College Foundation,

Inc., in conjunction with the donors, has established a spending plan whereby dividends and interest earned on the corpus may be used for academic scholarships. The realized gains are set aside as a reserve.
