PeopleSoft 9.2

Announcement

TO: Georgia*FIRST* PeopleSoft Financials Users

POSTED: February 13, 2017

SUBJECT: Travel & Expenses Module Enhancement Review Session

One of the benefits of the PeopleSoft Financials 9.2 upgrade and Oracle's continuous release delivery methodology is gaining the availability of new features and functionality without having to do a major application upgrade. The Georgia*FIRST* Financials support team is reviewing the functionality and enhancement options that have not yet been made available within each module.

To ensure that our Operational Roadmap is aligned with the priorities of the institutions we support, we are planning to host a series of in-person Module Enhancement Review Sessions. These sessions should be attended by institutional module experts and decision makers. Two representatives from each institution may attend.

The focus of these sessions will be to:

- Review 9.2 configuration or functionality available, but not yet implemented
- Review upcoming configuration or functionality that will become available with the next Annual Oracle Maintenance Release
- Measure institutional interest
- Prioritize desired functionality

The results and deliverables from these sessions will allow us to develop a Module Roadmap and implementation plan.

The next Module Enhancement Review Session is currently being planned as follows:

Module(s): Travel & Expenses
Date: March 7, 2017
Location: Information Technology Services (ITS), 2500 Daniells Bridge Rd, Bldg. 300, Athens, GA 30606
Room: 104
Time: 9:00 am to 4:30 pm (classroom opens at 8:30)

We encourage all institutions to have up to two representatives at this session so that interest in and prioritization of functionality discussed can be accurately measured.
